PAN-AMERICAN EXPOSITION 1901

THE DIRECTOR GENERAL.

BUFFALO, N.Y., U.S.A.
ON THE NIAGARA FRONTIER MAY 1ST TO NOVEMBER 1ST 1901

April 15, 1901.

To Whom it may concern:--

The sole and only right to
publish and sell the official catalogue and guide
to and of the Pan-American Exposition has been granted
Charles Ahnhart, Esq., Buffalo, N. Y.

Very respectfully yours,

Wm. S. Buchanan
Director-General.

THE PAN-AMERICAN.

Scarcely four years have elapsed since its conception, when it was proposed to hold an Exposition which should be all-American in its scope.

Its sole object, to promote commercial and social interests among the States and countries of the Western Hemisphere.

Its fundamental idea, essentially different from that of any other of the great fairs, in that it commemorates no historical event.

The citizens of Buffalo, in March, 1899, raised by popular subscription the sum of \$1,750,000, and because of this display of interest and the belief in their ability to finance and produce a successful Exposition, Congress became convinced that the work would be well done and designated Buffalo as the most desirable location, and accordingly assisted with an appropriation of \$500,000.

In 1899 the present business organization was effected, which chose for the site of the Exposition its splendid location, occupying as it does 350 acres of land and including a portion of Delaware Park, whose irregular lake, flowering shrubs and rare trees make it by far the most picturesque portion of Buffalo's famous park system.

Through the untiring efforts of the management, vast interest in Pan-Americanism has been created; all that is best and most interesting to display, has been secured from the commonwealth; and the result is an Exposition successful in every particular and worthy of its name.

OFFICERS, DIRECTORS AND COMMITTEES OF THE Pan-American Exposition.

JOHN G. MILBURN, President.

EDWIN FLEMING, Secretary.

GEORGE L. WILLIAMS, Treasurer.

DIRECTORS.

J. G. HOWARD,

R. S. PEABODY,

GEORGE CARY,

WALTER COOK,

E. B. GREEN,

AUGUST C. ESENWEIN.

C. Y. TURNER, Director of Color.

KARL BITTER, Director of Sculpture.

EXECUTIVE OFFICERS.

WILLIAM I. BUCHANAN, Director-General.

JOHN N. SCATCHERD, Chairman Executive Committee.

GEORGE L. WILLIAMS, Treasurer.

HENRY M. NICHOLLS, Secretary to Treasurer.

EDWIN FLEMING, Secretary.

JOHN B. WEBER, Commissioner General and Auditor.

FREDERIC W. TAYLOR, Director of Concessions.

JOHN BYRNE, Commander of Police.

EXHIBIT DIVISIONS.

GEORGE FRANCIS SEVER, Superintendent of Electric Exhibits.

WILLIAM A. COFFIN, Director of Fine Arts.

CHARLES C. CURRAN, Assistant Director.

THOMAS M. MOORE, Superintendent of Graphic Arts, Machinery,
Transportation Exhibits and Agricultural Implements.

RICHMOND C. HILL, Assistant Superintendent of Graphic Arts.

EDWARD N. SQUIRES, Assistant Superintendent of Machinery.

LIEUT. GODFREY L. CARDEN, in charge of Ordnance Division.

SELIM H. PEABODY, Superintendent of Liberal Arts.

JACOB S. OTTO, Assistant Superintendent of Sanitary Exhibits.

A. L. BENEDICT, Superintendent of Ethnology and Archaeology.

FRANK A. CONVERSE, Superintendent of Live Stock and of Dairy
Products and Agricultural Products.

FREDERIC W. TAYLOR, Superintendent of Horticultural and Food
Products.

WILLIAM SCOTT, Assistant Superintendent of Floriculture.

H. E. VAN DEMAN, Assistant Superintendent Division of Horticulture.

F. De P. TOWNSEND, Assistant Superintendent of Forestry.

G. EDWARD FULLER, Assistant Superintendent of Food Products.

DAVID T. DAY, Superintendent of Mines and Metallurgy.

ALGAR M. WHEELER, Superintendent of Manufactures.

BUREAU OF PUBLICITY.

MARK BENNITT, Superintendent of Press Department.
F. R. ROSSEEL, Superintendent of Advértising Department.
J. F. NOEL, Chief of Latin-American Press Section.
F. F. HELMER, Designer.
EDWARD E. PIDGEON, New York City Representative.
VESTA E. SEVERINGHAUS, Chicago Representative.

BUREAU OF TRANSPORTATION.

JAMES V. MAHONEY, Superintendent of Passenger Department.
BRUCE ELLIS, Superintendent of Freight Department.

BUREAU OF LAW AND INSURANCE.

OSCAR T. TAYLOR, Secretary.

BUREAU OF PRINTING AND SUPPLIES.

FRANCIS ALMY, Purchasing Agent.

BUREAU OF LABOR REGISTRATION.

FRANK M. DEVLIN, Chief.

BOARD OF WOMEN MANAGERS.

MISS MARION DE FOREST, Secretary.

SPORTS AND ATHLETICS.

JESSE C. DANN, Chairman.

BUREAU OF ADMISSIONS AND COLLECTIONS.

W. E. CASH, Superintendent.

DEPARTMENT OF WORKS.

NEWCOMB CARLTON, Director of Works.
RUDULF ULRICH, Landscape Architect.
J. H. MURPHY, Chief of Building Construction.
S. J. FIELDS, Chief Engineer.
HENRY RUSTIN, Chief M. and E. Bureau.
HARRY WEATHERWAX, Chief Draughtsman.
GEO. P. BRINTNALL, Superintendent of Plumbing.
R. H. CHERRY, Transportation Bureau.

OTHER DEPARTMENTS.

JOHN BYRNE, Commandant of Police.
ROSWELL PARK, Medical Director.
FRANCIS ALMY, Purchasing Agent.
C. Y. TURNER, Director of Color.

STANDING COMMITTEES OF THE EXPOSITION.

STATE AND FOREIGN RELATIONS—J. N. Adam, Chairman; D. S. Alexander, Charles F. Bishop, J. J. H. Brown, Jos. E. Gavin, Alfred Haines, Arthur C. Hastings, R. R. Hefford, Lucien Howe, William L. Marcy, J. W. Robinson, Laurence D. Rumsey, William H. Ryan, T. Guilford Smith. Nicholas Veloz-Goiticoa, Secretary.

FINANCE—Franklin D. Locke, Acting Chairman; J. J. Albright, Stephen M. Clement, Eugene A. Georger, Frank H. Goodyear, William Hamlin, Elliott C. McDougal, Pascal P. Pratt, Charles A. Sweet, George L. Williams.

WAYS AND MEANS—Wm. H. Hotchkiss, Chairman; S. G. Dorr, W. Caryl Ely, John Feist, John W. Fisher, H. H. Hewitt, John Hughes, Charles R. Huntley, Joseph T. Jones, Charles Lautz, Franklin D. Locke, Henry J. Pierce, Thomas T. Ramsdell, J. W. Robinson, Henry Weill.

PUBLICITY—George Bleistein, Chairman; E. H. Butler, William C. Cornwell, W. Caryl Ely, F. C. B. Held, Charles F. Kingsley, Norman E. Mack, Darwin D. Martin, Geo. E. Matthews, E. G. S. Miller, Ray V. Pierce, Thomas T. Ramsdell, Ottomar Reinecke, George T. Smith, James Gerard Smith, Jacob Stern.

EXHIBITS—Frank B. Baird, Chairman; Michael Danahy, Charles Groben, P. H. Griffin, George B. Hayes, Clarence M. Howard, C. H. Keep, H. T. Koerner, Geo. E. Laverack, O. P. Letchworth, M. B. Patch, A. E. Perren, E. R. Rice, James M. Rozan, J. F. Schoellkopf, Jr., R. K. Smither, C. E. Walbridge.

CONCESSIONS—H. J. Pierce, Chairman; Frank B. Baird, Arthur D. Bissell, Edmund Hayes, Charles R. Huntley, George P. Sawyer, Pen-dennis White.

TRANSPORTATION—W. Caryl Ely, Chairman; R. Bell, J. P. Bradfield, C. A. Brunn, P. C. Doyle, W. C. Farrington, H. S. Fisher, F. P. Fox, D. Lundergan, J. D. McDonald, C. E. Markham, Frank J. Moore, J. J. Mossman, Tracy W. Niles, Harry Parry, H. J. Pierce, W. H. Underwood.

FINE ARTS—T. Guilford Smith, Chairman; J. J. Albright, Willis O. Chapin, William C. Cornwell, William A. King, Ralph H. Plumb, George P. Sawyer, L. G. Sellstedt, Carlton Sprague.

MUSIC—F. C. M. Lautz, Chairman; John H. Cowing, Walter J. Dunham, Simon Fleischmann, H. M. Gerrans, Raphael Herman, R. H. Heussler, Geo. A. Lewis, Hobart Weed.

ENTERTAINMENT—John G. Milburn, President of the Exposition, Chairman; R. B. Adam, Frank L. Bapst, Henry W. Box, H. W. Brendel, John M. Brinker, John Coleman, E. T. Evans, Theodore Fassett, S. Levyn, D. H. McMillan, James Mooney, Roswell Park, Mathias Rohr, Augustus F. Scheu, Henry H. Seymour, James R. Smith, Thomas Stoddart, George Urban, Jr., Henry M. Watson.

LAW AND INSURANCE—Herbert P. Bissell, Chairman; James A. Roberts, Robert F. Schelling. Oscar T. Taylor, Secretary.

PRINTING AND SUPPLIES—William H. Hotchkiss, Chairman; H. V. Bisgood, H. M. Gerrans, William Hengerer, F. C. M. Lautz. Francis Almy, Purchasing Agent.

SPORTS AND ATHLETICS—Jesse C. Dann, Chairman; Charles Cary, J. McC. Mitchell, John B. Olmsted, Charles M. Ransom, Seward A. Simons, Wm. B. Wright, Jr.

BOARD OF WOMEN MANAGERS—Mrs. William Hamlin, President; Mrs. J. J. Albright, Mrs. Tracy C. Becker, Miss Ida C. Bender, Mrs. Charles Cary, Miss Annie Dameř, Mrs. Joseph Desbecker, Mrs. Jos. E. Gavin, Mrs. David Gray, Mrs. P. H. Griffin, Mrs. A. G. Hauenstein, Mrs. John M. Horton, Mrs. Charles F. Kingsley, Mrs. Norman E. Mack, Mrs. Geo. E. Matthews, Mrs. Adelbert Moot, Mrs. Herman Mynter, Mrs. Elizabeth B. McGowan, Mrs. W. A. Rogers, Mrs. Robt. K. Root, Mrs. J. F. Schoellkopf, Jr., Miss Frances G. Stanton, Mrs. George W. Townsend, Mrs. Herman Waterman, Mrs. Lester Wheeler. Miss Marian DeForest, Secretary.

The Exposition.

The problem of starting is the only one with which those who contemplate visiting the Exposition will meet, and that is so easy, that it is answered by the single word "Start." Situated as Buffalo is, the center from which radiate trunk lines to every point of the compass, it may safely be said to enjoy railway facilities possessed by no other city in the world. In the heart of the commercial continent, accessible by rail from all parts of the country, and in direct communication with the system of Great Lakes. Attractive in topography and ornate in every discription of architecture, the Queen City of the Lakes, invites the world to come into her midst and be her guest from May first to November first, 1901.

The Rainbow City, thirty minutes' ride from the heart of Buffalo, under splendid domes, attractive minarets, towers and pavilions aglow with numberless pleasing hues and tints, and within the classic outlines of its buildings, visitors will be regaled with views showing the progress of the few years past, ornamented and enlarged by attractive exhibits from all parts of the Western Hemisphere. Second in size only to the World's Fair and far more attractive and unique in many particulars beyond that display in 1893, and thoroughly original in its most distinctive features, the Pan-American Exposition opens its gates feeling confident that no visitor will be disappointed.

GENERAL PLAN OF GROUNDS.

The general plan of the Exposition grounds can be compared to that of an inverted "T" with the cross arm as the Esplanade extending east and west, and the vertical stem extending north, terminating in the Propylaea or entrance to the railway station. The Court of Fountains is in the center of the vertical stem and starting from its four corners is the beginning of the main group of large buildings. From the railway station and passing through the Plaza, the visitors enter the court; to the westward are the Electricity, the Machinery and Transportation buildings, separated by the Sunken Gardens which are filled with the choicest of flowers and cooling fountains, the water taking the form of beautiful flowers, &c. To the eastward are the buildings for Agriculture, and Manufactures and Liberal Arts, also separated by Sunken Gardens. Standing in a broad basin to the northward of the Court is the Electric Tower, rising to a height of 391 feet, adorned with many costly groups of sculpture upon its salient points, and from a niche in

its southern face gushes a cascade 70 feet high and 30 feet wide. Connecting with this basin, a canal bordered by beautiful trees and crossed by arched bridges, runs westward, to the north of the Electricity building and eastward to the north of the Agriculture building and then turns and flows southward terminating in the Mirror Lake, filled with grottoes and effects of marvelous beauty and interest. Facing the Esplanade on the north is the Cascade Fountain, and at either end are the Esplanade fountains, surrounded as they are with statuary of every description. The Esplanade is designed so as to be capable of holding 250,000 people, and from its southern end, entrance is effected from the Fore Court over the Triumphal Bridge, surmounted on its four corners by four massive towers two hundred feet high. The Esplanade is probably by four massive towers two hundred feet high. The Esplanade is probably given by the finest bands of the country.

EXPOSITION COLOR SCHEME.

In all previous expositions, the main feature has been the architectural work and not color. But this one represents both, and is after the plan designed and directed by C. Y. Turner, representing the fierce struggle of "man to overcome the elements."

As one enters the grounds, on the left will be seen buildings which represent "elements," and on the right those representing man and his affairs, or that which man has gained after long years of struggling to overcome the elements.

The struggles are represented by heavy deep coloring of red, blue, green and gold, graduating gently but firmly in tints, until the electric tower is reached, where it again commences in a deep green as near the color of Lake Erie as it was possible to get it. The tower itself is a cream white with sculpture work on the four corners, and is tinted with blue, green and gold, getting fainter until the top is reached, terminating in the figure representing all that man has accomplished over the elements.

ILLUMINATION.

The illumination is the most brilliant and elaborate ever contemplated. An Electric Tower soaring to a lofty height, and surmounted by a splendid statue of the Goddess of Light, is the centerpiece of this great dominating feature of the Exposition. It is studded with incandescent lamps and powerful searchlights, one of which, at a great height, sends its gleams for many miles around, embracing in its grand circle the Falls of Niagara and the Canadian Frontier. Every great building is outlined with a myriad of lights, and the staff glows with effulgent splendor. The Court of Fountains is brilliantly and fantas-

tically illuminated. Colored lights from concealed electric bulbs are absorbed by the flowers in the gardens of the courts. A cascade gushes from a niche in the tower, from which scores of searchlights play their iridescent colors upon the scene.

ARCHITECTURAL FEATURES.

The style of architecture, a free treatment of the Spanish Renaissance, is a compliment to the Latin-American countries, who are prominent exhibitors.

Column and entablature have been used for decorative, rather than for architectural effect, and the exterior of every building presents great richness of design, by the generous use of colonnades, balconies, loggias, towers and minarets, commanding broad views of the grounds.

Grand original sculptured groups, designed by leading American artists, guard entrances and bridges, lacking only life to complete the ideality of their purpose.

Instead of glaring white, there is color everywhere, and color used on color to gain the desired effect.

Beautiful decorations in color are so profuse that it makes one shudder to reflect that all this was improvised for the fleeting purpose of a season's passing show.

The largest architectural synthesis of the Exposition surrounds the Court of Fountains. Here are grouped on the east and west the Manufactures and Liberal Arts and the Machinery and Transportation buildings, with the Agriculture and Electricity buildings opposite, while between the Court and the Plaza rises the Electric Tower to a height of 391 feet, upon which are displayed electrical phenomena hitherto unattempted.

At the base of the tower two colonnades, 75 feet high, sweep to the southward and form a semi-circular space opening toward the Court of Fountains, and on the top of its domed cupola a superb figure, the Goddess of Light, is poised, overlooking and dominating the entire Exposition.

But even here the art spirit dominates, and the entire exterior of the tower is richly ornamented with plastic design and sculpture, and the ordinary visitor will certainly find himself more inclined to study the wonderful freedom and beauty of the decorations than to go seriously into the evidence they give of the progress of electrical science.

In the center of this Court lies the Aquatic Basin, covering two acres. This has been treated with a view to bringing out special designs in jets of water, which take the form of magnificent sculptures in large numbers.

EXPOSITION ENTRANCES.

The grounds are provided with seven entrance gates. The one at the northern extremity of the grounds is that provided to receive the numbers who will arrive by steam railroad, all the different lines coming into one central station. This will also be the gate for the Niagara Falls and the Lockport trolleys.

The Elmwood gate and Amherst gate are on the western side of the grounds and are accessible to the Elmwood electric car lines, which run to the center of the city and connect by transfer to all the other lines of the system.

The Meadow gate, Water gate and the Lincoln Parkway gate, are on the southern side of the Exposition grounds, and are the gates through which those will come, who drive or walk to the grounds from the city.

The East Amherst gate, located on the eastern side of the grounds, will be the one most easily accessible to those living in the north-eastern section of the city and is but a short distance to the Hertel Avenue trolley line, connecting to Main and Niagara streets.

THE TRIUMPHAL BRIDGE.

One of the most majestic and distinctive decorative features of the Exposition is the Triumphal Bridge. This spans the Grand Canal between the Mirror Lakes and leads the visitor from the Fore Court to the Esplanade. The composition is intended to express the pride of the people of the North American Union in their country. In this splendid gateway are four gigantic piers, upon which mounted standard bearers hold aloft the national emblem, and about the bases are trophies of peace and war, and numerous other pieces of statuary, each expressing some phase of national greatness.

THE GRAND CANAL.

The Grand Canal, over a mile in length, extends around the central group of large buildings. Winding lagoons connecting with the canal branch off in all directions. The Mirror Lakes in the southern portion of the canal, form a picturesque feature. The outer bank of the canal and the banks of the lagoons are sodded and set with trees and flowers, producing vistas of unusual interest and beauty. Electric launches, gondolas and other small craft ply from place to place. The ride is a refreshing one, with charming views at every turn. Romantic bridges span the waterway at convenient points, and statuary placed everywhere adds to the picturesque effect.

THE PLAZA.

The Plaza is situated at the Northern end of the Exposition grounds and is bounded by three buildings, forming a square 350 feet by 500 feet. Its name being suggested because of the very free version of Spanish architecture adopted in the surrounding buildings.

North of the Plaza is the railway station, which is masked by the Propylaea, a colonnade flanked at either end by two colossal entrance and exit arches. West of the Plaza is a restaurant 350 feet long, two stories high and through the lower arches visitors may pass to the Midway. East of the Plaza is the entrance to the Stadium, resembling that erected at Athens some few years ago.

THE ELECTRIC TOWER.

Soaring to a height of 375 feet stands the Electric Tower, the crowning centerpiece of the Exposition. The main body of the tower is 80 feet square and 200 feet high. The crown being in three parts, of diminishing proportions. The first of these is an arcaded loggia richly ornamented in all details. Pavilionesettes adorn each of the four corners and terminate in cupolas. Above the loggia is a high circular colonnade entirely open, so as to allow the effect of the sky to be seen between the columns. A spiral stairway in the center leads up to a domed cupola on which is poised a superb figure, the Goddess of Light, overlooking and dominating the entire Exposition. At the base of the tower, on the east and west sides, two colonnades, 75 feet in height, sweep to the southward and form a large semi-circular space opening toward the Court of Fountains. The Tower is entered by way of an ornamental bridge from the Plaza on the north side. Elevators carry the visitors to the many floors. At a height of 75 feet is a large restaurant, from which one may stroll upon the roof gardens above the colonnades. From the various floors, the visitors may obtain interesting views of the Grounds, the City, Lake Erie and Niagara river.

The color scheme is a cream white, beautifully trimmed in blue and gold, and the entire exterior is richly ornamented with plastic designs and sculpture. The panels on the four walls are of open work, so that the effect at night, when the interior is lighted is exceptionally brilliant and grand. The Tower stands in a basin and from a niche in its face gushes a cascade 30 feet wide and 70 feet high.

The entire framework of the tower is of steel and was the design of Architect Howard Cobb of New York.

U. S. GOVERNMENT BUILDINGS.

The buildings erected by the U. S. Government are located at the extreme end of the Esplanade, facing the East fountain. They were designed under the direction of the Supervising Architect of the Treasury Department, Mr. J. K. Taylor, and consist of three structures connected by curved arcades, the middle one being crowned by a dome 250 feet above the main floor, on which is an imposing figure of Victory, 20 feet high. The cost to the Government for the three buildings and the exhibits contained in them was \$500,000. The Departmental exhibits are the largest and most complete ever made at any exposition and include the War and Navy, Postoffice, Agriculture, Treasury and the different bureaus of the State Department. In the central building the Postoffice Department occupies a space to the left of the entrance. The methods of mail transmission are fully illustrated and a postoffice equipped with all the latest devices used in the larger offices of the United States, is the feature of the exhibit.

The exhibit of the National Museum, under the auspices of the Smithsonian Institute, will be found of absorbing interest, displaying as it does the resources of the Americas, the West Indies, and the new possessions of the United States.

The Fisheries exhibit, which is located in the building occupying the most southern position of the three, is beyond question the most complete of its kind ever attempted, and illustrates the various methods of fish propagation, and the boats and apparatus used by fishermen in the many lines of this most important industry.

ELECTRICITY BUILDING.

Northwest of the Court of Fountains, with its eastern end facing the Electric Tower, is the Electricity Building. The area covered by the building is seventy-five thousand square feet, the structure being five hundred feet long from east to west, and one hundred fifty feet wide.

In front of the building, flanking both sides of the main entrance, is an open portico fifteen feet wide, extending along the entire building, to which entrances open on all sides. It was designed by Architects Green & Wicks of Buffalo, N. Y., who also designed the Machinery and Transportation building, next south. The windows are grilled in somewhat the same manner, while the color scheme is light yellows and reds. The main floor covers an area of twenty-five thousand square feet of exhibit space. In the northwestern corner of the building is the Niagara Falls Transformer Plant, with a capacity of five thousand horse-power, the purpose of which is to transform the power delivered from Niagara Falls to a lower voltage so that it can be used for distribution about the

grounds, to operate lights and other electrical appliances. The few years which have passed since the Chicago exposition have witnessed a phenomenal advance in electric science, and today it is no discredit to former expositions to say, the Electricity building of the Pan-American surpasses anything thus far attempted in this direction. The development of electric power is illustrated in a very comprehensive manner; working models of many of the great plants are on exhibition, and those who desire to see the plants themselves will have only to go a distance of twenty miles from the grounds—a ride of about thirty minutes—in order to do so.

The names and locations of the various exhibits will be found on another page of this book.

The following classification of exhibits into fourteen groups has been adopted:

Group 1—Apparatus illustrating the phenomena and laws of electricity and magnetism.

Group 2—Apparatus for electrical measurements.

Group 3—Electric batteries, primary and secondary.

Group 4—Machines and appliances for producing electrical currents by mechanical power—dynamo-electric machinery.

Group 5—Application of electric motors; elevators; power and railways.

Group 6—Transmission and conversion of electric power, including recent types of large transformers constructed for the purpose of transforming high potentials, with working models of various transmission lines.

Group 7—Systems of lighting by electricity—arc and incandescent.

Group 8—Heating by electricity, showing the latest methods and apparatus for heating cars, and the maintenance of high temperatures under particular conditions; the heating of flat irons, cooking and baking by electricity; electric forging, welding, stamping, tempering and brazing, showing by the most recent devices the wide application of electricity to the working of metals.

Group 9—Electro-metallurgy and electro-chemistry.

Group 10—Electric telegraph, electric signals, wireless telegraphy.

Group 11—The telephone and its appliances.

Group 12—Electricity in surgery, dentistry and therapeutics. The results of X-ray work are included in this section.

Group 13—History and statistics, progress and development in electrical science and construction from its inception, as illustrated by models, drawings, literature or otherwise.

Group 14—Electricity in submarine and torpedo work, as used in engineering and warfare.

The cost of the building, without ornamentation, was \$130,000.

MACHINERY AND TRANSPORTATION BUILDING.

Southwest of the Court of Fountains and separated from the Manufactures and Liberal Arts building by the Cascades is the Machinery and Transportation building. It occupies a space 500x350 feet or about four acres. The building is in the form of a hollow square, with arcades on all sides and an interior court 100x200, where the pumping station for the Exposition is located. It was designed by Architects Green & Wicks of Buffalo, N. Y. The roof is of red tile and its cement walls are tinted with a color scheme of light reds and yellows. The windows are grilled with iron screens designed after the Spanish "rejas" of the sixteenth century. As an architectural work the building is a masterpiece, in the style of the Spanish Renaissance. The main entrances in the north and south facades are flanked on either side by tall towers having open lanterns and an intricate detail of plastic ornamentation. The entrances are all rich in their decorative work and the walls are broken with arcaded windows. Each facade is thus enriched with important architectural features and at the four corners are open pavilions from which charming views of the grounds may be obtained. The Machinery exhibits include the most modern agricultural machinery and appliances and the wonderful display of modern machinery of American invention, illustrates the progress that has been made within the last few years. The Transportation exhibit is no less interesting, and includes all of the very latest specimens of road vehicles, locomotives, cars and railroad appliances.

The cost of the building, exclusive of ornamentation, was about \$265,000.

For list and location of exhibits, see the floor plan.

MANUFACTURES AND LIBERAL ARTS BUILDING.

Southeast of the Court of Fountains and separated from the Machinery and Transportation building by the Cascades, is the Manufactures and Liberal Arts building, a handsome structure entirely surrounded with a portico about fifteen feet wide, with openings through semi-circular arches, supported by square columns. On the four ends of the building and in the center of the front, are towers crowned by domes, and through which are the entrances to the building. Over the main entrance of the building on the south is a high dome, flanked by four square, open towers. Broad steps between large groups of statuary lead up to the entrance, which consists of a high arch with two tall columns on either side. Above the arch, elaborate relief work enriches the gable. Statues symbolizing the various arts and industries are

placed in niches at the angles of the several open towers around the dome. The towers may be reached by open spiral staircases, 17 feet in diameter. The interior of the dome, 70 feet across, is encircled by galleries from which one may have a good view of the crowds below. The several entrances and all the exterior work upon the building are of a highly ornamental character, much attention having been given both to the detail and the ensemble. The building is lighted from the windows of the loggias and around the inner court, and from skylights. Its dimensions are 500x350, having an exhibit space of about four acres. It was designed by Architects Shepley, Routan & Coolridge of Boston, Mass. The color scheme used on the building is of light browns and reds.

Similar to the Machinery and Transportation building, it has a central court 200 feet by 100 feet, which is used entirely for jewelry and cut glass exhibits. Here the visitor will find gathered together in profusion the very latest productions of the mills and factories of the United States and other countries of the Western Hemisphere, and it may safely be said to be the greatest variety of manufactured products ever brought together. Foods and their accessories, a division having a place in the N. W. end show the possibilities for food production in Pan-America.

The Department of Liberal Arts, in the N. E. end of the building, includes education, engineering, public works, architecture, literature and kindred subjects.

The cost of the building was \$255,000.

For list of exhibits, etc., see the floor plans on another page of this book.

AGRICULTURAL BUILDING.

The Agricultural building occupies the space northeast of the Court of Fountains, with its western end facing the Electric Tower. It is five hundred feet long and one hundred fifty feet wide, with its longest dimension extending east and west. The architects were Shepley, Routan & Coolridge of Boston, Mass. Along the north and south sides of the building extends an open portico flanked by semi-circular arches, supported on cylindrical columns. The color scheme is in light yellows and reds. In this building will be found agricultural exhibits of a most interesting character, and articles pertaining to the farm; showing many of the wonderful possibilities in farm work. Exhibits from all the South and Central American countries are located on the main floor, and on the north side a gallery is provided for smaller exhibits.

This building is the magnet which attracts progressive farmers, where they can learn how to lighten their labors and improve the

products of their fields. The exhibits embrace all phases of agricultural work, showing the advantages of different processes and methods of work, and the farm products under all sorts of conditions. Ample provisions have been made to give this important industry the attention it deserves. The exhibits are divided into 13 classes, arranged in three groups.

The first group of six classes is composed as follows: Agricultural systems, management and processes; agricultural statistics; cereals; tubers and root crops; by-products used for food; agricultural products not otherwise classified.

The second group of five classes is as follows: Grasses and forage; fibres of vegetable origin and the processes; fibres of animal origin and the processes; non-edible products of animal origin; and natural fertilizers, crude and compounded.

The third group includes dairy management and appliances, and dairy products.

The cost of this building, without ornamentation, was about \$90,000. List of exhibits appears on another page of this book.

HORTICULTURE BUILDING.

Flowers in profusion will welcome the visitors who enter the Exposition grounds by the Elmwood gate. The handsome and commodious building to the left, surmounted with a lantern roof, rising to a height of 240 feet, is the Horticultural building. Square in plan and connected by glass roofed arcades to the Graphic Arts building on the north, and the Mines building on the south. The three buildings forming a semi-circular court in front, facing the western Esplanade Fountain. The central, or Horticultural, building can be reached from the west by following along the Western Midway road until the canal bridge is reached or from the east directly from the Esplanade. At each of the four corners of the building is a tower, octagonal in design and capped with a dome. The walls of the building are covered with bas reliefs, twining vines, etc. It was designed by Architect R. S. Stearns of Boston, Mass. In this building will be found all the popular fruits of the different countries represented in the exposition, and a refrigerating plant on the grounds makes it possible to provide a daily supply of fresh fruit. Articles and appliances used in horticulture make up a large part of the exhibit. In the conservatories which connect this building with the others are rare exhibits of hot-house plants.

The cost of the building was about \$240,000.

For list of exhibitors and spaces, see the floor plans appearing on another page of this book.

THE MINES BUILDING.

At the southwestern end of the Esplanade and connected to the Horticultural building by an arcade, which is used as a conservatory for flowers, is the Mines building. Square in design, with four square corner towers and a loggia of three arches forming the entrances to the building, which is lighted by means of a glass skylight in the center of the roof. The building has a floor space of thirty thousand square feet and was designed by Architect R. S. Stearns of Boston, Mass. In this building is found an extensive exhibit of mines and metallurgy. Minerals of every description, both useful and ornamental, are fully represented. The methods and processes employed in the treatment of ores and the means employed in bringing them from the earth can be studied by those interested. All parts of the United States, and every country of South and Central America, Canada, Mexico, and the islands of the sea have contributed to the exhibit. All kinds of machinery used in the manipulation of ores is shown. Taken altogether the Mines building is one of the rare attractions of the exposition.

List of exhibits appears on another page of this book.

THE TEMPLE OF MUSIC.

The Temple of Music, one of the most beautiful of the Exposition buildings, is situated west of the central fountain of the Esplanade and south of the Machinery and Transportation building. It is a square-shaped building, the arched entrances at the corners giving it a circular appearance. It is surmounted by a tower covering the entire building and this is covered with a dome rising 180 feet above the main floor. The building is colored in light yellows, with gold and red trimmings, and the panels in the dome are in light blue, producing an extremely beautiful effect. The building occupies a space 150 feet by 150 feet, and was designed by Architect Aug. C. Esenwein of Buffalo, N. Y., and cost \$85,000.

It provides an auditorium capable of seating 2,200 people, and contains one of the largest pipe organs ever built in the United States, and daily organ recitals are given by the most celebrated organists of this country and Canada. The organ is the work of Emmons Howard of Westfield, Mass., and is equipped with all the latest improvements known to organ builders. The principal national holidays will be observed with musical festivals, and many of the most famous bands of both the New and Old Worlds will give concerts in the Temple of Music, and from the other various band stands of the exposition grounds.

THE GRAPHIC ARTS BUILDING.

In size and form the Graphic Arts building is similar to the Mines building and was designed by the same architect, Mr. R. S. Stearns of Boston, Mass. It is located at the western end of the Esplanade, and is connected to the northwestern end of the Horticultural building by means of an arcade, in which are blossoming hot-house plants. Entrances are provided on each of the four sides of the building, through a loggia of arches. In this building will be found a most timely display, illustrating the remarkable progress of printing and its allied arts.

GRAPHIC ARTS WORKSHOP.

This is the building directly west of the Horticulture building and on the opposite side of the canal. It is a low building with its overhanging eaves, forming an open portico, surrounding the entire structure, and flanked by rows of columns. The building is 140x40 feet and is used, as its name implies, as a workshop for the Graphic Arts department. The exhibits are in lithography, printing, engraving, bookbinding, electrotyping, stereotyping and other kindred trades.

THE ETHNOLOGY BUILDING.

The Ethnology building occupies a very prominent place in the group of main buildings. It is opposite the Temple of Music, from which it is separated by the cascade fountain, and is, therefore, situated at the northern side of the Esplanade. The building is circular in form with a diameter of 150 feet and four arched entrances are equally spaced around the circumference of the building. The building is surmounted by a dome covered with red tile, while the color scheme for the sides is light yellow. It was designed by Architect George Cary of Buffalo. In this building are exhibits of great historical interest; relief maps of Niagara Frontier, showing sites of the Indian Village, and the results of researches into the origin, the filiation, the customs and institutions of wild and barbarian tribes still existing, or of whom we have authentic records.

The cost of the building was \$88,000.

WOMEN'S BUILDING.

As one enters the Elmwood gate, the building directly ahead and on the east side of the Horticultural Gardens, is the Women's building.

A frame structure, formerly the home of the Country Club.

In addition to the offices, the building contains a number of beautiful tea rooms and reception rooms, all opening into a large hall, which is planned to serve as a reading room, when not in use for entertainments.

On the main floor of the building will be found a bureau of registration where club women are invited to leave their addresses, so that the building will serve as headquarters for clubs and organizations.

Here the Board of Women Managers of the Exposition will receive and entertain all the honorary members of the Board, the various clubs and other noted guests.

NEW YORK STATE BUILDING.

This is the first building to the right or south of the Elmwood gate, and is an edifice of substantial and enduring character. The architect was George Cary of Buffalo, N. Y., and the cost \$375,000. The exterior of the building is entirely of white marble, and in style of architecture it resembles a Grecian temple of the Doric order. The dimensions of the building are 85x130 feet, the height is 33 feet on the north wall and 40 feet on the south walls. In the basement are the boiler rooms, bicycle rooms, &c. The building is provided with a dining room containing about 2,000 square feet, and over 10,000 square feet of floor space is taken up by the museums. After the Exposition the building becomes the permanent home of the Buffalo Historical Society, whose large collection of pioneer relics it contains.

THE STADIUM.

The Stadium for athletic sports, as its name implies, is modeled after the Panathenaic Stadium, scooped by Lycurgus out of the banks of the Ilissus, at Athens, 2200 years ago. It is situated to the left or east of the Plaza as one enters by the railway gate.

The dimensions of the ancient stadium were 680 feet in length and 130 feet in breadth, while this modern copy is 840 feet long and 400 feet wide. The present interest in athletic sports has been handsomely recognized in this fitting monument to their popularity.

The nature of the sports planned is varied. Amateur as well as professional events of all kinds will be held, and will include baseball, football, cycling, shooting, lacrosse, Caledonian games, cricket, tennis, and other sports. The Stadium contains a quarter-mile racing track and ample space for all the popular athletic games, with a seating capacity in the stands of over 12,000.

Here also will be the displays of livestock, automobiles, and other road vehicles, farm and road machinery in motion.

The structure was designed by Architect Walter Cook of Boston, Mass.

THE ART BUILDING.

The extremely high character of this exhibit makes it especially interesting to all art lovers. All that was best in the many Expositions recently held, has been obtained together with the choicest pictures in many private American collections. The exhibit of paintings and sculpture though not as large and varied as that of the World's Fair, is thoroughly creditable, and the building of Fine Arts ought to be the most interesting spot on the ground to cultured people and especially artists. It is situated in the southeastern part of the grounds, directly in front of the Meadow gate, a brick fireproof building 225x100 feet, provided with entrances on the north and south sides, and was designed by Green & Wicks, of Buffalo, N. Y.

The Albright Art Gallery, which is in an unfinished condition and in the extreme southwestern part of the Exposition grounds, was to have been used for the Pan-American gallery, but owing to some difficulties met with in the course of its construction, it could not be completed in time, and thus the Exposition lost one of its most beautiful buildings.

THE ORDNANCE BUILDINGS.

The buildings, two in number, for displaying the exhibits of ordnance are located in the southeastern section of the grounds, and south of the section occupied by the state and foreign buildings. On entering the grounds by way of the Meadow Gate, they are the two large buildings to the right. Alike in design and each occupying a space 100x50 feet. The roofs are of red tile with overhanging eaves and the outer walls are colored in light yellows. This is a collective commercial exhibit, everything representing something purchasable, in contradistinction to the government exhibit, located at the north end of the United States Government building. All the largest builders of arms and ammunition are represented, and it undoubtedly is the most complete exhibit of ordnance ever shown. The display has been in charge of U. S. Lieut. Godfrey Carden.

ACETYLENE BUILDING.

West of the Manufactures and Liberal Arts building and separated by the canal, is the building in which the exhibits of acetylene gas apparatus will be displayed. It occupies a space 100x30 feet and in design and color conforms with the surrounding buildings.

STATE AND FOREIGN BUILDINGS.

In the southeastern section of the grounds and directly south of the U. S. Government buildings are the various and attractive structures erected by the states and foreign countries participating in the Exposition.

The Illinois building—The State of Illinois appropriated \$75,000, and are to erect a building, though at the time of this writing only the walls of the building are completed. Crossing the bridge at the east end of the Fore Court, it is the second building to the right.

Maryland building—North of the Ordnance buildings and south of the Michigan building will be the building to be erected by the State of Maryland, which will not be finished until the early part of May. The State appropriation was \$25,000.

Michigan building—Southwest of the Indian Mounds, which are about in the center of the space allotted to state and foreign buildings, is the building erected by the State of Michigan. It occupies a space 100x40 feet, and is two stories high. The State appropriation was \$40,000.

Minnesota building—The appropriation from this State is \$30,000. A building will probably be erected, but at the time of this writing, it had not been decided upon.

New England building—The New England States have combined and are all represented in one large building. It is situated west of the Michigan building, and the best way of approaching it is by crossing the bridge on the east side of the Fore Court. It is a building 100x50 feet, two stories high and its flat roof is surrounded by a balustrade. The appropriations from the different States were: Connecticut \$25,000, Massachusetts \$15,000, Rhode Island \$30,000.

Missouri building—The State of Missouri appropriated \$50,000 for its exhibit and will erect a building, to be completed by the middle of May.

New Jersey—This State has made an appropriation of \$25,000, and will erect a building, but at the present writing it has not been begun.

Ohio building—Overlooking Mirror Lake and north of the Illinois building is the structure built by the State of Ohio. Rectangular in shape, two stories high, a capacious porch and balcony surrounding the entire building. The space occupied by the building is 80x120 feet and the State's appropriation was \$30,000.

Wisconsin building—This building is the first building to the right as one crosses the bridge from the east side of the Fore Court. It is a two story building, 50x50 feet, with gabled roof and has an extremely large and ornamental verandah on its western end. The State appropriation was \$25,000.

Several other states are at present making arrangements for the construction of buildings, but their location has not as yet been decided upon, and a full and complete description will appear in the next edition of the Guide. A list of these States and their appropriations is given below: Washington \$35,000, Oregon \$20,000, Idaho \$15,000, North Dakota \$10,000, Alabama \$25,000.

CANADA BUILDING.

The splendid building situated between the Dairy building and the Stadium, is that erected by the Canadian Government. It consists of a central or main building, surmounted by a dome, and has two wings extending west and south respectively from the same. The space occupied by the building is 2,500 square feet. Besides this building, the Canadian Government has made extensive exhibits in the various exposition buildings. The appropriation was \$112,000.

LATIN-AMERICAN COUNTRIES AND BUILDINGS.

The Argentine Republic appropriated \$30,000 gold for its exhibits at the Exposition, and occupies 1,500 square feet of space in the Forestry building, and 3,700 feet in the Agriculture building. The wonderful resources of that country are but little appreciated by the public and this opportunity to study them is worthy of very general attention. The Republic is represented by Lieut. John S. Atwell.

Bolivia has 2,400 square feet of space, distributed in the Agriculture, Mining and Ethnology buildings. The country is particularly rich in its mining resources. Bolivia is represented by Senor Don Ramon Pandohijo, son of the President.

Brazil—A "Brazilian Fazenda" in miniature, is a part of the exhibit from this country. It is situated southeast of the Fore Court, and north of the Honduras building, and illustrates the cultivation of coffee, rubber and other products. Brazil also occupies 500 square feet of space in the Agriculture building.

Chili makes a magnificent showing, having appropriated a larger sum than that of any other country for her representation at the Exposition, \$170,000 gold. Its building which is one of the most unique in design, cost \$28,000, and the exhibit is a magnificent one, showing her wonderful advance in culture and all the arts of civilization. Chili is represented by a commission of eleven members with Senor Don Enrique Budge, Commissioner General.

Colombia is represented by Senor Dr. Luis Cuervo-Marques, special Commissioner, but has no exhibits.

Costa Rica occupies 1,660 square feet in the Horticulture, Forestry, Ethnology and other buildings, having some very interesting features. Her representative is Senor Dr. Juan J. Ulloa.

Cuba is represented by a commission of which Senor Don Perfecto Lacoste is chairman. The Cuban building is 50 by 75 feet, cost \$25,000, and is the second building east of the Fore Court approach. A collection of exhibits of surprising excellence has been arranged for the inspection of those who are interested in this new insular nation.

The Dominican Republic is represented by Senor Don Francisco Leonte-Vazquez, special commissioner and two other commissioners. This country has erected a special building, west of the Ordnance exhibit buildings, costing about \$4,000, and supplying space for a very attractive exhibit of her resources.

Equador is represented by a special building, located southeast of the Indian Mounds, having appropriated \$16,000 for her representation. Senor Don F. Mora Silva is the special commissioner.

Guatemala occupies about 1,100 square feet of exhibition space in several buildings and her special commissioner is Senor Don Albert Niquet.

Hayti makes a special exhibit of Agricultural products.

Honduras has a graceful building, west of the Fore Court and adjoining the same, costing about \$6,000. Her principal exhibits are those of mines and forestry, as her resources in these products are of signal importance and value. The Ethnological exhibit is also important and valuable.

Mexico has a two story building, north of the Ordnance building, it is 40 by 60 feet, costing \$5,000, containing only the mining exhibits from that country. Mexico also occupies space to the amount of 3,000 square feet in the Agriculture building; 2,000 feet in the Forestry; 2,000 feet in the Horticulture; 3,000 feet in the Manufactures, and 2,000 feet in the Ethnology building. The Mexican Government is represented by a commission of her foremost citizens, of which Senor Ingeniero Don Albino R. Nuncio is chief. Mexico also sends a company of mounted Rurales and a Military Band of 62 pieces, which will be quartered upon the Exposition grounds.

Nicaragua occupies important space in the Mining, Horticulture, Agriculture and Ethnology buildings. Senor Don Luis F. Corea is chairman of the Nicaraguan Commission.

Peru occupies space in the Agriculture, Manufactures, Forestry and Mines buildings, and makes a very interesting showing of her varied important products.

Porto Rico is represented by Senor Don Jose T. Silva, chairman and two other Commissioners. The Island Government is spending \$10,000 upon its exhibits. A typical Porto Rican "Rancho" 24 by 78 feet and 20 feet high, costing about \$2,000, contains most of the exhibits from that

Island, and is the first building west of the New England building. About 1,200 square feet of space in the Agriculture building are also occupied by Porto Rico.

Salvador makes a good showing of her mineral, agricultural and forestry resources in about 2,000 square feet of space. Senor Dr. Dario Gonzales is chairman of the Salvador Commission.

Uruguay and Venezuela are represented only by individual exhibitors. Venezuela appropriated \$100,000 for an exhibit but political disturbances compelled an abandonment of the project.

Jamaica is represented by the Agricultural Society which has space in the Horticulture and Agriculture buildings, in charge of Mr. Barclay Bouchier Chadwick.

THE DAIRY BUILDING.

Separated from the Agriculture building by the canal, and the third building to the right as one enters the East Amherst gate, is that occupied by the exhibits of the dairy. It is of the Swiss style of architecture, and is of very clever design, deserving of special mention in this particular. In the center of the building is an exhibition case extending almost the entire length, carefully insulated, in order that its contents shall preserve that freshness which is always the charm of a well-kept dairy. Exhibits are arranged along the sides of the building and cooling plants are provided.

For list of exhibits see another page of this book.

BAZAAR BUILDING.

This building has been laid out with special reference to the needs of Concessionaires, who have for sale various kinds of wares, souvenirs, &c. as may properly be sold within the Exposition grounds.

It is situated on the Mall, West of the Electricity building, being separated from it by the canal, and was built along the same general architectural lines as the other Exposition buildings.

In this building will be found the Post Office, Telegraph Office, Express Offices, and Newspaper Headquarters.

THE SERVICE BUILDING.

To the right of the Mall as one enters the Amherst Gate is the Service building. This was the first building built on the grounds, and is used as an office and administration headquarters for the Exposition Company. It is a two-story building 150x100 feet, with a light yellow coloring and is provided with an interior court for the lighting of the various interior offices.

THE ROSE AND HORTICULTURAL GARDENS.

This outdoor display is situated in the southeastern part of the grounds, and begins directly in front of the Elmwood gate. Prominent nurserymen from various parts of the country have made exhibits of nursery stock, including orchard and ornamental trees, shrubs and evergreens. And prominent florists generally have planted over 500 beds of floral exhibits in the seven acres set apart for these displays. This includes every variety of the popular flowering plants. When certain flowers are at their best, special exhibitions will be held, and the public may have the pleasure of inspecting wonderful displays of roses, dahlias, gladioli, sweet peas, chrysanthemums, cannas, etc.

SIX NATIONS' STOCKADE.

South of the U. S. Government building is the living exhibit of the Six Indian Nations. A stockade has been built and a typical historic Indian village is reproduced, bringing the visitor back some three or four hundred years ago. The Indians, who are representatives of all the tribes, will follow the customs of their early ancestors in making weapons, utensils, tools, dolls and knick-knacks, and these articles will be offered for sale. In the center of the stockade is a reproduction of the famous council house of the Iroquois. The exhibit is of special value to students, as interpreters are provided so that they may talk with the Indians themselves.

LIVE STOCK EXHIBIT.

To the left as one enters the East Amherst gate are the buildings for this exhibit, covering an area of about 10 acres and with a capacity for housing 6,000 animals. Fifteen in number and provided with all modern conveniences for the healthful care of stock of all kinds. In this department, owing to the large number of applications for entry great care has been taken that the exhibits shall consist of nothing except the finest specimens of each particular class.

FORESTRY EXHIBIT.

This exhibit is appropriately housed in a building of rough logs, south of the U. S. Government buildings and separated from them by the canal. On entering the Meadow gate and walking northward till the second crossroad is reached, it is the second building to the left. It is 100x150 feet in size and contains exhibits from most of the South and Central American countries, as well as complete ones from the United States and Canada.

CHILDREN'S BUILDING.

Situated on the south Midway and adjoining the concession for Venice in America, is the building provided for the use and care of children. It is a two-story frame structure 75x60 feet and the color scheme adopted is in accord with the surrounding buildings, of browns and yellows. On the first floor are provided parlors and reception rooms, and also a diet kitchen for the preparation of the foods for the little ones.

In the second story a dormitory is arranged and about fifty cots are arranged within the same.

BAKER'S AND LONEY'S CHOCOLATE EXHIBIT BUILDINGS.

On the south and north sides of the canal bridge, which approaches the Horticulture building from the east are the two buildings which these two firms use for their exhibits of chocolate, cocoa, etc. The Baker building on the south side is rectangular in form, two stories high and upon which is a cupola terminating in a spire. The second story of the building is arranged in the form of a gallery in which are placed tables and chairs, for the accommodation of the visitors while being served to chocolate and cocoa.

The Loney building, on the north side, is somewhat similar in form, but is surmounted by a dome, supported on pillars. The interior arrangement of the building is like that of the Baker building, and the same arrangement is made for the accommodation of the visitors.

LARKIN'S SOAP BUILDING.

The exhibit of the Larkin Soap Company is housed in a very beautiful building east of the Manufactures and Liberal Arts building, separated from the same by the canal, and south of the restaurant. The exhibits are of their various kinds of toilet, laundry and other classes of soap.

RESTAURANTS.

Ample provision has been made for the accommodation of visitors. There are six large restaurants, besides those located in the different villages and concessions of the Midway, lunch stands, &c.

At the entrance to the Midway, on the west side of the Plaza.

At the entrance to the Stadium, on the east side of the Plaza.

On the south Midway and west of the Horticulture building.

On the Mall and east of the Manufactures and Liberal Arts building.

On the Lake, to the right of the Lincoln Parkway gate.

In the Electric Tower—take elevator.

HOSPITAL BUILDING.

An emergency hospital on the grounds has been provided by the Exposition Company. A competent staff of physicians will be found in attendance constantly. It is the first building to the right as one enters the Amherst gate. The structure is 30x100 feet and is provided with well-equipped operating rooms, sleeping rooms, etc., such as are in any up-to-date hospital.

CAMERA PRIVILEGES AT THE PAN-AMERICAN EXPOSITION

May be enjoyed upon payment of 50 cents per day for each instrument and a somewhat less rate when permit is taken out for a week, the only limitations being that no tripods be used and the plates must not be larger than 4x5 inches.

PAN-AMERICAN STAMPS.

The series of stamps to be issued by the Government will be ready for delivery the latter part of April. They are said to be "the most artistic series ever issued from the department," and include the following:

One cent (green)—The lake steamer presents the port bow, the pilot house is well forward and it is propelled by side wheels.

Two cent (red)—The train of four cars is drawn by a locomotive with four drivers; four parallel tracks are shown.

Four cent (red-brown)—The automobile is of the closed coach order, with two men on the box and a part of the United States Capitol at Washington as a background.

Five cent (blue)—This presents the largest single span steel bridge in the world; two trolley cars are seen upon it, and a full view of Niagara Falls is shown under, beyond and up the river with the graceful springing arch as a frame.

Eight cent (lilac)—The great ship canal locks at Sault Ste. Marie, Michigan, are given in a view from a higher point, including the immediate surroundings.

Ten cent (light brown)—An ocean steamship of the American Line, with two smokestacks and masts, presents its starboard bow lapped by a rising wave.

THE MIDWAY.

Chiefly for the want of a better name, the amusement section of the Exposition has followed in the wake of Chicago, and been called "The Midway." The very large area lying in the northwestern end of the grounds has been allotted to the concessionaries whose business it is to amuse, and at the same time instruct the visitors.

Here are found foreign villages with picturesque types of architecture and the curious and interesting evidences of civilization, so different from our own.

In modern expositions, the Midway has come to be a fixture, and without it the Exposition would lose much of its charm. Visitors to all of the great National and International shows, carry away with them the most pleasant recollections of scenes in the amusement section. This part of the Pan-American does not consist of mere fun-making exhibitions, but in addition to the legitimate amusement which is afforded visitors, there is much that is instructive and profitable.

Great care has been exercised by the exposition management in making the concessions for these attractions, which, having passed through a period of evolution and development, have attained a degree of splendor quite impossible a few years ago.

Entering the Midway through the Plaza entrance, we give below a brief description of the attractions as they appear.

ESQUIMO VILLAGE.

The Esquimo Village represents such scenes as the traveler finds in their native land. The native amusements are presented for the entertainment of the visitors. A large company of Esquimaux appear in native dress, showing the manners and customs of their country, and from the shops and stores are sold their merchandise.

THE PAN-OPTICAN.

The first building to the left as one enters the Midway. It consists of a large collection of wax figures, representing the various phases of life. This exhibition is somewhat similar to the Eden Musee of New York and the Moorish Palace (so popular at the World's Fair). It does not, however, contain a "Chamber of Horrors" or anything pertaining to crime.

GLASS FACTORY.

A glass factory in full operation—illustrating the process employed in the manufacture of all kinds of glassware, from the raw materials to the finished products. Articles are made in the presence of the visitor and offered for sale.

STREETS OF MEXICO.

This concession occupies 95,000 square feet of space, and presents a graphic picture of Mexican life, both the old and the new. It includes a restaurant, theatre, dance hall, market, an old rural village with its adobe huts and a representation of the cliff dwellers of Mexico. A Mexican band plays the peculiar native instruments, and every feature reproduces Mexican life.

TRIP TO THE MOON.

The journey is made on the airship "Luna," and is of thrilling interest to everyone who gets aboard, and a great amount of curiosity exists to learn how it is accomplished. In the palace and domain of the Man-in-the-Moon the visitor finds numberless things to cause wonder and amusement, and after a stroll among the streets, shops, etc., of the earth's satellite, the visitor returns to earth, safe and sound.

THE ÆRIO-CYCLE.

This attraction is the altitudinous novelty of the Midway. It resembles the "teeter" of boyhood days, constructed on a grand scale. It consists of two revolving wheels for carrying passengers, at the ends of a structural steel beam, and is so operated that when one wheel is down, the other is at an altitude of 275 feet, affording a wonderful view of the Exposition.

DARKNESS AND DAWN.

A realistic representation of a departed spirit, whose life on earth has not been exemplary. The visitor witnesses the punishment meted out to scandal-mongers, umbrella borrowers and other offenders. After the seas of fire are passed, beautiful scenes to delight the eye appear, so that the visitor may become accustomed to the more familiar places above ground.

OLD PLANTATION.

Reproducing a veritable old plantation in its minutest detail, and giving the visitor an interesting glimpse of the sunny South. The slave quarters and log cabins were brought from the South, and are occupied by genuine darkey families and their pickaninnies. Dancing and other pastimes dear to the old negro are given at the theatre, included in the attraction.

AFRICAN VILLAGE.

A collection of some thirty-five different African native tribes with their supremely ancient weapons, household gods and primitive handicraft. Native workmen show their skill in working of gold and silver. The enclosure contains sections of large villages in their primitive

state, with a theatre in which are given at times free exhibitions of native dances and entertainment. The folk songs and tales of equatorial Africa are given, showing the derivation of our negro melodies, and witchcraft tales. A Boer exhibit with hospital and trek wagons, various curios illustrating the war in Africa with the hammock carriers and means of transportation of the great African carivans.

HAWAIIAN VILLAGE AND THEATRE.

This attraction will be especially interesting to the visitor, since it represents the life, customs, etc., peculiar to our new possession. The village is made to appear like one of the original island settlements and will be managed entirely by their own people.

It includes a theatre, in which is given a continuous native performance.

MINIATURE WORLD'S FAIR.

As its name implies, the World's Fair has been transported to the Pan-American Midway, and is here shown, though somewhat reduced in size, but still preserving its essential features. This attraction will prove of interest to those who did not attend the Chicago Fair, and will serve to refresh the memory of those who were more fortunate.

HOUSE UPSIDE DOWN.

This is the oddest attraction on the grounds and represents a castle standing on its roof and battlements. The visitor enters through the roof and after going up—or down several flights of stairs reaches the cellar, which has been converted into a garden. The apartments are elaborately furnished, and the topsy-turvy arrangement appears everywhere.

CLEOPATRA'S TEMPLE.

The splendid building of Egyptian architecture, directly opposite the House Upside Down. Here are shown a series of grand paintings illustrating events in the life of the Egyptian Queen, culminating with Cooper's masterpiece, "Cleopatra," in which she is shown surrounded by her oriental splendor in a beautiful pose, and displaying her charms in order to captivate Antony. The paintings are extremely realistic, combining grace and beauty, and one almost believes the most beautiful woman in the world is there in flesh. The exhibit is owned by Alonzo Lincoln.

AROUND THE WORLD.

This is really a Moorish theatre in which the home of the Pasha is represented, surrounded by his wives, the dancing girls giving exhibitions of the graceful and fascinating dances of the different countries.

MUTOSCOPE.

In this building are presented a number of machines similar to the "slot machines," in which are shown numberless pictures. A vast amount of instruction as well as amusement is afforded the visitor.

COLORADO GOLD MINE.

A faithful representation of a gold mine in working order, showing the manner employed in wresting the gold of commerce from the secret rock bound treasure troves of nature. On entering the mine competent guides explain the various drifts, veins and ledges.

This is not a model, but an actual reproduction of a Colorado mine.

PABST'S PAVILION.

In which the beer that made Milwaukee more famous, can be bought in quantities to quench the thirstiest thirst, while the strains of an excellent orchestra delight the ear. Solid refreshments are also provided.

BEAUTIFUL ORIENT.

This feature is a dazzling, realistic display of the charms of the East, representing the salient characteristics of Eastern countries, with Oriental streets, buildings, costumes, animals, bona fide natives, and the necessary paraphernalia for a representative exhibit. In the center of the space is a plaza from which diverge several streets, each being characteristic of a great city of the East.

DREAMLAND.

At the west end of the Midway is the building occupied by Dreamland, or the Mirror Maze. Behind mirrors is a large amount of fun for those who attempt to explore its recesses. No illusion on the Midway is more confusing and amusing.

CINEOGRAPH.

In this building, located at the north end of the west Midway are shown a collection of moving pictures of various scenes in life, faithfully reproducing motions, etc., so that the pictures appear extremely realistic. The pictures are entirely of scenes of interest, and are a highly creditable collection.

MRS. McCREADY'S RESTAURANT.

Here the visitor may procure foods of any description to satisfy "the inner man." A first-class restaurant in every particular and assured of a high-class patronage.

WAR CYCLORAMA.

Representing the Battles of Missionary Ridge and Lookout Mountain. The visitor has presented before him the scenes of this great battle of the Civil War. The proprietors could scarcely have selected a more interesting and instructive picture for the occasion.

WILD WATER SPORTS.

Here a number of elks and other animals are exhibited. From platforms erected high above a water tank erected in the center of the building, living elks dive into the water below, and perform other equally daring feats for which they have been especially trained.

GYPSY CAMP.

In this exhibit the visitor is introduced to a genuine gypsy camp, with all its embellishments true to their manner of life. Fortunes are here told that cannot fail to come true, and the opportunity is afforded of purchasing the many various articles made by the gypsies and peculiar to their race.

BOSTOCK'S CHARIOT.

Similar in operation to a merry-go-round, although possessing many new and distinct features, this concession cannot fail to do a rushing business. The amusement afforded is especially entertaining to people both old and young.

JOHNSTOWN FLOOD.

For this concession a large building has been constructed north of the Bazar building. In it is presented a graphic illustration of the storm leading up to the breaking of the artificial lake and the awful flood of the Conemaugh river which overwhelmed the city of Johnstown, Pa., in 1889.

FILIPINO VILLAGE.

This is the opportunity for all who would like to know just how a Filipino village looks, to satisfy their curiosity. A number of Filipinos live in their native style and have about them articles and utensils such as are used in their every-day life. Filipino trinkets are sold to visitors.

ALT NURNBERG.

The quaint old German town of Nuremberg is here represented. A street of this old town is reproduced with strict fidelity to the original, and within the buildings facing the street, are shops, restaurants and other places of business in exactly the same manner as found in the old town.

INFANT INCUBATOR.

This exhibit is housed in the brick structure which is the next east of the Service building. In it is a complete incubating plant, such as is used in the rearing of infants. Many new and original devices are here illustrated, and not only in novelty but from an instructive point of view is the exhibit interesting.

FAIR JAPAN.

Entering the Japanese village, through the gate of the Nikkil Temple, one can easily imagine himself to be in Fair Japan. Native girls in native costumes serve the tea, and geisha girls entertain you with dancing. The buildings and decorations are strictly Japanese. A reproduction of a royal dwelling is shown and in the numerous bazaars and shops, all sorts of trinkets are exhibited and sold as souvenirs. A free out-door performance goes on continuously and in the theater is given a strictly Japanese performance, by the native jugglers, dancers, etc.

IDEAL PALACE.

Opposite the Japanese village is the Ideal Palace exhibit. As its name implies it is a representation of a palace, resplendant with the trappings of royalty, and bringing the visitor back into days medieval, and giving an idea of the life and surroundings of those fortunate enough to have been born and reared with a silver spoon, &c.

SCENIC RAILWAY.

Trains of cars glide up and down the Scenic Railway, upon which the visitor may ride and enjoy a wonderful variety of landscape views. Electrically illuminated tunnels are passed which are filled with beautiful scenery. The sensation of the ride can be compared to that of coasting down hills in winter, without the element of danger to life and limb.

DAWSON CITY.

An electric scenic production, representing the burning of Dawson City. The visitor here will see vivid scenes of this awful conflagration. Skillfully arranged electrical effects serve to intensify the situations and add realism to the scenes.

ANIMAL SHOW.

An animal show, similar to that at the World's Fair, with many additional attractions is presented at the Pan-American, and upon a scale even more grand. The exhibit presents one of the finest collections of trained wild animals ever before shown, more than 60 trained animals appearing in the exhibit.

VENICE IN AMERICA.

This is a perfect replica of the living city, with real palaces, shops, bridges and canals, gondolas and gondoliers. Visitors can ride in the gondolas and be steered through the windings of the palace-lined waterways, while the ear is charmed with sweet songs and the music of the mandolin or guitar.

OSTRICH FARM.

The ostrich farm consists of an enclosure of $2\frac{1}{2}$ acres in which are shown about 75 ostriches, of all sizes from the chick to the full grown bird. The nests of the birds, with eggs and feathers in the unfinished conditions are shown, and the process of raising the birds, producing, curing and marketing the feathers is illustrated.

JERUSALEM ON THE DAY OF THE CRUCIFIXION.

This consists of a cyclorama representing the scenes, conditions, &c., in and about Jerusalem on the day Christ was crucified. The fame of this production is quite well known throughout the country, and will be of special interest to those religiously inclined, and a lesson to others.

INDIAN CONGRESS.

The space allotted to this exhibit is at the most southern end of the Midway. The different tribes of Indians appear before the visitor, presenting their different styles of war and ghost dances, with their songs and weird musical accompaniments. Seats are arranged in a semi-circle in the center of which the performance is conducted.

THE CAPTIVE BALLOON.

To the left of the entrance to the Stadium is the space allotted for the exhibit of the Captive Balloon. The balloon is 100 feet in diameter, made of silk and carries a comfortable car for the seating of those who desire to make the trip upwards. It is operated by machinery and ascends to a height of 1,000 feet, remaining up 15 minutes, affording a magnificent view of the grounds and adjacent country.

Special Days.

- May 1—Opening Day.
 20—Dedication Day.
- June 6—Hotel Men's Day.
 14—Flag Day.
 17—New England Day. Bunker Hill Day.
 18—Wells College Day.
 19—A. O. U. W. Day.
 20—Connecticut Day.
 26—Odd Fellows' Day.
 27—Odd Fellows' Day.
- July 2—Wellesley College Day.
 5—New York Liederkrantz Day.
 10—Maryland Day.
 11—Commercial Travelers' Day.
 18—Ohio Day.
 23—C. M. B. A. Day.
 24—Knights of Columbus Day.
 25—Scandinavian Day.
- Aug. 1—Mystic Shriners' Day.
 10—Missouri Day.
 14—Virginia Day.
 15—Red Men's Day.
 26—Municipal Day.
- Sept. 10—Rhode Island Day.
 12—Polish Day.
 17—Grand Army of the Republic Day.
 19—Welsh Day.
- Oct. 8—Brooklyn Day.
 9—New York Federation of Women's Clubs.
 10—National Grange Day.
 21—Louisiana Day.

Sport Days.

There will be a continuous carnival throughout the summer in the magnificent Stadium of the Pan-American Exposition. Following is the schedule of events:

- Friday, May 17th—Cornell-University of Michigan Baseball Game.
- Saturday, May 18th—Erie County Track and Field Games.
- Friday, May 24th—New York State Interscholastic Track Games.
- Saturday, May 25th—New York State Interscholastic Track Games.
- Friday, May 31st—Pan-American Intercollegiate Track Games.
- Saturday, June 1st—Pan-American Intercollegiate Track Games.
- Monday, June 3d to 7th—School Boy Military Tournament.
- Saturday, June 8th—Cornell-Carlisle Baseball Game.
- Thursday, June 13th—A. A. U. Championships.
- Friday, June 14th—A. A. U. Championships.
- Saturday, June 15th—A. A. U. Championships.
- Monday, June 17th—A. A. U. Basketball Championships.
- Tuesday, June 18th—A. A. U. Basketball Championships.
- Saturday, June 22d—Western New York Track Meet.
- Monday, June 24th—Canoe Meet.
- Tuesday, June 25th—Canoe Meet.
- Thursday, June 27th—Volksfest (German Singing Societies).
- Friday, June 28th—Scottish Games.
- Saturday, June 29th—Scottish Games.
- Monday, July 1st—Canadian-American Lacrosse Championships.
- Tuesday, July 2d—Canadian-American Lacrosse Championships.
- Wednesday, July 3d—Canadian-American Lacrosse Championships.
- Thursday, July 4th—All-round A. A. U. Championship and Handicap events; Marathon Race.
- Saturday, July 6th—Exhibition by German Y. M. C. A.
- Wednesday, July 10th—Interscholastic Basketball.
- Thursday, July 11th—Interscholastic Basketball.
- Friday, July 12th—National Interscholastic Track and Field.
- Saturday, July 13th—National Interscholastic Track and Field.
- Monday, July 15th to 20th—Shooting Meet.
- Tuesday, July 23d—National Y. M. C. A. Track and Field Games.
- Wednesday, July 24th—National Y. M. C. A. Track and Field Games.
- Friday, July 26th—Metropolitan Meet A. A. U.
- Saturday, July 27th—Metropolitan Meet A. A. U.
- Monday, August 5th—Bicycle Meet and National Amateur Championships.

Tuesday, August 6th—Bicycle Meet and National Amateur Championships.

Wednesday, August 7th—Bicycle Meet.

Thursday, August 8th—Bicycle Meet.

Friday, August 9th—Bicycle Meet.

Saturday, August 10th—Bicycle Meet.

Monday, August 12th—Bicycle Meet.

Tuesday, August 13th—Bicycle Meet.

Wednesday, August 14th—Bicycle Meet.

Thursday, August 15th—Bicycle Meet.

Friday, August 16th—Bicycle Meet.

Saturday, August 17th—Bicycle Meet.

Thursday, August 22d—Firemen's Tournament.

Friday, August 23d—Firemen's Tournament.

Saturday, August 24th—A. A. U. Gymnastics.

Wednesday, August 28th—Irish Sports.

Thursday, August 29th—Irish Sports.

Friday, August 30th—Irish Sports.

Saturday, August 31st—Irish Sports.

Monday, Sept. 2d—Association Football.

Tuesday, Sept. 3d—Association Football.

Wednesday, Sept. 4th—Association Football.

Thursday, Sept. 5th—Association Football.

Friday, Sept. 6th—Pan-American World's Championships, Cross Country Run.

Saturday, Sept. 7th—Pan-American World's Championships.

Monday, Sept. 9th—Cattle Show.

Tuesday, Sept. 10th—Cattle Show.

Wednesday, Sept. 11th—Cattle Show.

Friday, Sept. 13th—Cattle Show.

Saturday, Sept. 14th—Cattle Show.

Monday, Sept. 16th to 21st—Automobile Week.

Saturday, Oct. 5th—U. of B.-Lehigh Football Game.

Saturday, Oct. 12th—U. of B.-Brown Football Game.

Saturday, Oct. 19th—Cornell-Carlisle Football Game.

Wednesday, Oct. 23d—Wesleyan-U. of B. Football Game.

Conventions to be Held in Buffalo.

The following conventions will be held in Buffalo during the present year:

- May 9 —New York State Medical Association (Fourth District).
15 —National Tile, Grate and Mantle Association.
22 —Daughters of Veterans, New York State Department.
23-24—National Civic Federation.
23-25—Alpha Delta Phi.
...—Reunion Smith Family of Ohio, Vermont and Connecticut.
- June 1 —Gamma Sigma Fraternity.
4- 6—American Foundrymen's Association.
4- 8—State Pharmaceutical Association.
4- 8—Minnesota State Editorial Association.
4- 6—United States Brewers' Association.
8-11—Western Dancing Teachers' Association.
10 —National Association of Circulating Managers.
10 —American Institute of Electrical Engineers.
10 —Associated Ohio Dailies.
10-13—National Educational Association.
10-13—State Editorial Association.
10-13—Oregon Press Association.
10-20—Ancient Order United Workmen, Supreme Lodge.
12 —County Superintendents of the Poor, State Convention.
15 —National Prize Turnfest of the North American Turnerbund.
15 —National Association of Turn Teachers.
18-20—Junior Order United American Mechanics.
20 —New York State Bankers' Association.
24-25—American Canoe Association.
24-29—North American Saengerbund.
24-29—National Association of Elocutionists.
27-29—Manual Training Teachers' Association.
28-29—Kappa Alpha Fraternity.
...—Women's Literary and Educational Organizations of Western New York.
...—Special Exhibit of the New York State Horticultural Societies.
...—Tile Layers' Union of America.
...—National Stove Lining Association.
...—West Virginia Editorial Association.
...—Special Meeting of the Commercial Teachers' Federation.

BANK OF BUFFALO

MARINE BANK

ERIE COUNTY BANK

BUFFALO SAVINGS BANK

- July 1- 3—State Teachers' Association.
 2 —Metropolitan Association of the Amateur Athletic Union.
 2- 3—Theta Delta Chi.
 4- 6—German Catholic Union.
 4- 6—Eastern Puzzlers' League.
 9-13—Commercial 'Travelers' Conclave Week.
 8-13—National Association of Colored Women.
 9-13—Retail Clerks' National Protective Association.
 9 —Sons of St. George, Grand Lodge.
 12-20—Congress of Indian Educators.
 15 —State League of Co-operative Savings and Loan Associations.
 17-31—Pan-American Bible Study Congress.
 18-21—International Convention Anti-Cigarette League.
 20 —National Association of Photo-Engravers.
 23-25—Grand Chapter Signa Chi Fraternity.
 25 —International Jewelry Workers' Association.
 25-28—Young People's Alliance, General Convention.
 25-30—Great Lakes' 'Yachting Association.
 ...—Associated Bill Posters of the United States and Canada.
 ...—Electrical Contractors' Association, State.
- Aug. 2 —Improved Grand Council Ancient Arabic Order Nobles of the Mystic Shrine.
 1- 6—United Supreme Council of the Ancient Arabic Order Scottish Rite Masons (colored).
 3 —National Grand Court of the Daughters of Sphinx (colored).
 5 —General Grand Council R. & S. M. of the United States and Canada.
 5-10—Society of American Florists and Ornamental Horticulturists.
 5-17—National Cycling Association, Annual Racing Meet.
 6 —National Federation of Labor (colored).
 12-14—National League of Improvement Associations.
 12-17—League of American Wheelmen.
 12-15—Great Council, Improved Order of Red Men.
 15-20—National Shorthand Reporters' Association.
 19-20—Philatelic Sons of America.
 19-25—United Association of Journeymen Plumbers, Gas and Steamfitters of the United States and Canada.
 20 —Spanish-American War Veterans, State.

- 20-24—State Firemen's Association.
22 —Reunion Survivors Engineers' Brigade, Army of the Potomac.
22-24—State Shorthand Reporters' Association.
24 —International Acetylene Gas Association.
26-28—American Philatelic Association.
...—National Firemen's Association.
...—National Dahlia Association.
...—National Haymakers' Association.
...—National Prohibitionists' Conference.
...—American Institute of Farmers' Institute Workers.
- Sept. 1 —American Promological Society.
2- 5—International Brotherhood of Blacksmiths.
4 —Delivery Proprietors' National Association.
9-12—Hoo-Hoo National Concatenation.
10-14—Master Car and Locomotive Painters' Association.
16 —Shirt, Shirtwaist and Laundry Workers' International Association.
17-19—American Boiler Manufacturers' Association.
17-19—New York State Assembly American Fraternal Insurance Union.
17-20—American Public Health Association.
20 —State Side-Path Commissioners.
23 —Stereotypers' National Association.
24-26—American Electro-Therapeutic Association.
24-26—Patriotic Order Sons of America, National Camp.
25 —Spanish-American War Veterans, National Camp.
...—United Typothetae of America.
...—International Council of Nurses.
...—Master Composition Roofers of the United States.
...—Empire Knights of Relief.
- Oct. 1- 3—International Cremation Congress.
8-11—National Association of Retail Druggists.
8-10—State Federation of Women's Clubs.
18-23—National Universalist Conference (biennial).
14 —Knights of the Golden Eagle, Supreme Castle.
14 —National Hardware Association.
15 —New England Cotton Manufacturers' Association.
15-17—American Humane Association.
21 —National Household Economic Association.

- 21-26—State Synod of the Presbyterian Church.
-—Regular and Volunteer Army and Navy Association.
-—Beekeepers' Association of the United States.
-—Special Meeting of the State Dairymen's Association.
-—National Association of Dairy and Food Commissioners.
-—National Good Roads' Convention.
-—National Irrigation Congress.
-—American Leicester Breeders' Association.
-—American Oxford Down Association.
-—American Institute of Architects.
-—Railway Signaling Club.
-—Retail Furniture Association of the United States.
-—New York State Sabbath Association.

Sept.—Roentgen Ray Society of the United States.

Nov. 12 —International Wood, Metal and Wire Lathers' Union.

SIDE TRIPS FROM BUFFALO.

Buffalo is fortunate in her immediate surroundings and when the visitor to the Exposition shall have satisfied himself with sightseeing within the grounds, he will find much to delight him in and near the city or within a few hours' ride in any direction. The entire region about Buffalo is rich in its variety of natural scenery, and some of the most famous resorts in the world are near at hand. Popular summer places close by the city, to be reached by steamers upon Lake Erie and the Niagara River, are: Woodlawn Beach, on the American shore, south of the city; Crystal Beach, on the Canadian shore, an hour's ride from Buffalo; and Grand Island, with its many groves and summer hotels, on Niagara River, just below the city.

NIAGARA FALLS.

The far-famed falls of Niagara are only half an hour's ride from the Exposition grounds, and one may spend a week in the midst of this magnificent scenery and find new pleasures each day. It is quite impossible to describe the grandeur of these majestic cataracts, whose ceaseless roar has been heard through countless ages, and which have for centuries excited the awe and wonderment of savage and civilized men. The Niagara River receives the waters of Lakes Superior, Michigan, Huron and Erie and discharges them into Lake Ontario. At Niagara Falls there is a sheer descent of 160 feet. The width of the Falls,

including Goat Island, which divides the American from the Horseshoe Falls, is nearly four-fifths of a mile. Millions of tons of water plunge unceasingly over these dizzy heights, and surge and seethe in the gorge below. The gorge itself, with the Whirlpool Rapids and the mighty Whirlpool below them, is scarcely less fascinating and interesting. There is every convenience here for the comfort and convenience of the sightseer, and all points of interest are of easy access. The State of New York a few years ago bought the land immediately bordering on the Niagara River at the Falls, together with Goat Island, consisting of 75 acres, lying between the two great cataracts, and made the whole a public park. On the Canadian side the Ontario Government has also acquired several miles of land bordering the river and gorge, which is free to the public and is known as Queen Victoria Park. From Prospect Park the visitor has his first view of the wonderful scenery. Here he may almost dip his hand into the stream that instantly leaps far out into the deep gorge. Public vans, at a nominal price, will convey him across the long bridge over the American Rapids above the Falls to Goat Island, and around this wild and beautiful garden.

The Falls may be viewed from the gorge below by descending the incline railway from Prospect Park. Here the steamer "Maid of the Mist" will carry him well up towards the face of both the American and the Horseshoe Falls. The view is one of impressive and abiding grandeur. The Niagara Gorge is spanned just below the Falls by a steel arch bridge, so that one may take an electric car at the American side and spend a full afternoon with profit and pleasure viewing the scenery from Canadian points. A new suspension bridge between Lewiston may be crossed by the traveler, where he may take the Gorge Road and return to Niagara Falls on the American side, close to the river's edge nearly the entire distance. This is a ride of most fascinating interest and one learns to realize more fully the irresistible power of the great river current. Observation cars upon the New York Central branch also run between Lewiston and Niagara Falls, and an electric line runs from Lewiston to Youngstown on Lake Ontario at the mouth of Niagara River. Lewiston is also the American port for a line of steamers to Toronto and to Niagara-on-the-Lake. The latter is a famous resort for Buffalonians and Canadians, lying opposite Youngstown at the mouth of the Niagara, and is reached by rail from Buffalo by the Michigan Central Railway.

CHAUTAUQUA.

Scarcely less famous than the Falls of Niagara, is the Summer School at Chautauqua. This great educational center was many years

ago founded by Bishop John H. Vincent of the Methodist Church, upon Chautauqua Lake, among the picturesque hills of Chautauqua county, 800 feet above Lake Erie. The Assembly grounds have come to be the permanent abode of a considerable number of people and during six weeks of the summer season many of the most eminent men and women in educational and reform work of all kinds are to be heard in the great amphitheater. Students by thousands from all parts of the country, as well as from foreign lands, gather here to enjoy the bountiful feasts of learning amid scenery of rare beauty and attractiveness. From Buffalo one may reach Mayville at the head of the lake by the Western New York & Pennsylvania Railroad, or Jamestown at the foot, and Lakewood between these points, via the Erie Railroad. The Chautauqua Steamboat Company operates eight steamers on the lake and the round trip is a most delightful sail of about 40 miles. The train and boat service is such that one may leave Buffalo in the morning returning in the evening, and spend half the day on the lake. Near the foot of the lake is Celeron, the Coney Island for that part of the State, where a vast plant has been established for the amusement and entertainment of the public. There are numerous summer resorts along the shores, with fine hotels, and attendant fleets of small steamers and other craft—Point Chautauqua, Greenhurst, Lakewood, Bemus Point and others.

THE THOUSAND ISLANDS.

The Thousand Islands attract numberless visitors every season. These rocky isles are surrounded by deep-water channels and are crowned with a thick growth of cedars and other trees. The fresh, exhilarating atmosphere is ever inviting to the cottager and the camper, and summer homes, from the board shack or tent to the palatial villa, are to be seen upon these island shores. An excursion among these islands is full of interest, even to the hurried traveler. The region is well supplied with good hotels, and the railroad and steamboat accommodations are such as to meet all demands. One may have a choice of several routes from Buffalo. He may go by the New York Central to Charlotte and thence by a steamer of the Lake Ontario & Bay of Quinte Steamboat Company, or the Lake Ontario & St. Lawrence River Day Line, through Lake Ontario, or he may take a morning or evening train on the New York Central to Clayton, where boat connections are made. Another popular route is by way of Toronto, on the Niagara Navigation Company's steamers to Toronto, and thence by the Richelieu & Ontario Navigation Company's line via the Bay of Quinte.

MUSKOKA LAKES.

The Muskoka Lake region of Canada has become popular with Americans in recent years. Muskoka wharf is only eight hours' ride by rail from Buffalo by way of Hamilton and Toronto. The Toronto, Hamilton & Buffalo, Canadian Pacific and Grand Trunk all go to Toronto, and the Grand Trunk to Muskoka Wharf. Another pleasant route is by the New York Central to Lewiston, or Michigan Central to Niagara-on-the-Lake and by steamer to Toronto, and thence by rail to Muskoka. The three lakes, Muskoka, Rosseau and Joseph, have a shore line of 1,000 miles, and the climate is not only healthful but most exhilarating and delightful throughout the torrid season. The region is wild and romantic, and the thousands of campers who frequent the shores and islands of these lakes during the hot months have a hearty welcome for all who come to join them. The hotels are run on a family plan, and whoever loves boating and fishing will find abundant recreation here.

TRIPS WEST BY WATER.

The trip from Buffalo to Duluth and other lake points may be made upon the swift passenger steamers that rival in their beauty and equipment the finest steamships in the world. No journey is more refreshing than a ride through Lakes Erie, Huron and Superior in mid-summer upon boats of the Northern Steamship Company, Anchor or Lackawanna Lines, or through the wild and majestic scenery of Georgian Bay, from Collingwood, Parry Sound and other points. The Canadian Pacific Railway offers an attractive trip by rail from Buffalo by way of Toronto to Owen Sound, thence by boat through Georgian Bay and the Manitou Islands, the Sault Ste. Marie Canal and Lake Superior to Fort William, where connections are made with the main line. In the vicinity of Detroit are Put-in-Bay, Mt. Clemens, Grosse Isle and Belle Isle Park, with numerous summer homes and public resorts along the St. Clair River. For a short trip one may take the ride from Buffalo to Cleveland in one of the several floating palaces of the Cleveland & Buffalo Transit Company, or to Erie, Pa., by the Erie & Buffalo Line. By steamer the City of Erie is four hours away; Cleveland, nine hours; Detroit, eighteen hours; Put-in-Bay, eighteen hours; Mackinaw, thirty-five hours; Sault Ste. Marie, forty-two hours; Duluth, fifty-nine hours.

BRIEF HISTORY OF THE CITY OF BUFFALO.

In 1792, the first permanent settlement was made at the mouth of Buffalo Creek and for a while did not grow very rapidly. In 1805, The Holland Land Company, which owned a considerable portion of the site, sent Joseph Ellicott to survey its property and lay it out in lots and streets. The hamlet was called New Amsterdam, but the name of Buffalo which it took from the creek, was preferred by the people and was soon adopted by the Company. Joseph Ellicott was the real founder of the City and it was due to his foresight and energy that the little settlement, in the wilderness, grew and prospered.

Buffalo and its vicinity was the scene of several hard fought battles in the War of 1812. The village was burned by the British and Indians in 1813 and the inhabitants had to flee in all directions to save their lives. As soon as the war was over, the village began to build up again and was soon in a flourishing condition.

The completion of the Erie Canal, in 1825, gave an added stimulus to its growth, so that in 1832 Buffalo was incorporated as a City with a population of over 10,000. After the completion of the canal, Buffalo grew steadily and rapidly.

The lake passenger business became a great feature and many fine vessels were engaged in the business. With the advent of the first railroad, this business began to decline and as their construction became general almost passed away.

When the War of the Rebellion broke out, Buffalo's citizens nobly performed their duty to the Republic and its regiments won an enviable record. While the war lasted, the great amount of produce, moved at a high cost of transportation, sustained commercial activity. After the War, came the hard times of the seventies, but Buffalo's splendid situation as a gateway to the West, soon brought a new and lasting era of prosperity, which the population of 400,000 at the present writing attests.

THE ELECTRIC POWER.

A large portion of the electricity that will be used at the Exposition will come from Niagara Falls. This transmission of power means a great deal for the future of Buffalo as its use is practically unlimited. At first it was thought that power could not be transmitted such a distance and many famous electricians believed that the power would never be available for commercial purposes. The street railway lines are partly operated by electricity generated at Niagara Falls. This power will, of course, be cheaper than coal or else its promoters could not expect to compete with coal as a source of generating power. As it will necessarily dispense with the greater part of the labor now

necessary in handling the product of the mines, Buffalo manufacturers will be enabled to undersell their competitors and thus help to bring more business to Buffalo.

PARKS.

Buffalo's splendid system of parks with its connecting boulevards and parkways nearly encircles the city. On a high bluff, near the confluence of Lake Erie and Niagara river, is the Front, a park of forty-five acres. Connected with this by a series of tree lined avenues and spacious parkways is Delaware Park, the largest park in the city, containing about 365 acres. Part of this park, with the Park Lake, is contained in the Exposition grounds, the rest is taken up by the broad meadow and surrounding woods and drives. Turning east along Humboldt Parkway, we reach Humboldt Park, with its wading pond, the delight of the children, and a handsome lily pond. In the south part of the city are three parks, one at Stony Point of 62 acres, Cazenovia Park of 82 acres, and South Park of 150 acres. In South Park are the Botanical Gardens. Scattered over the city are numerous small parks and squares that afford breathing spaces for the public. Buffalo's streets are so lined with trees that nearly all of them seem like parkways.

STATE HOSPITAL FOR THE INSANE.

On Elmwood Avenue, near the Exposition grounds, is the largest public institution in Buffalo. This is the State Hospital for the Insane, in which there are about eleven hundred patients who receive the best of scientific and humane treatment. It is finely situated and the surrounding grounds are as beautiful as the gardener's art can make them. The administration building is three stories high and flanked with two lofty towers. On each side are five ward buildings and on the grounds are numerous other buildings such as a conservatory, infirmary, etc. The buildings are in the shape of a bow facing Forest Avenue and connected by corridors.

FOREST LAWN CEMETERY.

On the opposite side of Delaware Park, from the Exposition, is Forest Lawn Cemetery, one of the most beautiful places in Buffalo. It consists of two hundred and sixty acres, enclosed by Main Street, Delavan Avenue, Delaware Avenue, and Delaware Park. The land is rolling and well wooded. Numerous lakelets are scattered over the grounds and are joined by quietly flowing streams. The winding drives and shaded walks lead past the graves and monuments of many noted people. The most striking of these is the great bronze statue of the famous Indian orator, Red Jacket, that ornaments the plot of ground where the re-

mains of the famous Indian orator are buried, with other noted chiefs of the Seneca tribe.

WORKING BOYS' HOME.

The Working Boys' Home is the result of the efforts of the Right Rev. Bishop Ryan to provide a home for the boys who are alone in the city. The old Hammond mansion was bought in 1888. Work began at once on the remodelling and furnishing and in February, 1889, it was ready for occupancy. The Ladies' Aid Society was formed by the Bishop to help carry out the plans of the institution and to them a great deal of the credit for the Home is due. It is a pleasant Home where every effort is made to build up noble characters and keep the boys from evil associations.

EDUCATION.

The schools of Buffalo number about 60 and can compare in regard to efficient work and in all other circumstances with any school system in the United States.

They are under the charge of a Superintendent of Education, elected by the people, in whom is vested a great deal of power. There is also a Board of Examiners, from whose lists, the superintendent makes appointments of teachers. The remarkable growth of the City has kept the number of schools increasing constantly and as a result most of the buildings are of modern construction. The Central High School on Court and Franklin streets and the Masten Park High School are large, handsome buildings whose capacity together is about 2,000. Besides these are several annexes and a new West Side High School will soon be built.

The University of Buffalo was founded in 1845 and is now in a flourishing condition. It conducts departments in dentistry, law, medicine, pharmacy, and pedagogy. The College building on High Street is conveniently near the General Hospital.

One of the State Normal Schools and also many private, parochial, and denominational schools are located in Buffalo. Some of these schools have more than a local reputation.

74TH REGIMENT ARMORY.

The 74th Regiment Armory is an imposing building of brown stone; built after the style of a feudal castle. The big drill hall is about 310 feet long and 240 feet wide. On the Connecticut Street end of the Armory, is the Administration Building, about 250 by 350 feet, three stories high. The first floor is occupied by the company rooms, lockers, store rooms, and a great hall, designed as a "Hall of Trophies." On the second floor, the field and staff officers of the regiment have handsome

quarters and there is also a commodious billiard room. The third story is occupied by the quarters of the band and field music, the surgeons and the hospital corps, gymnasium, and baths. In the basement there is a rifle range; heating, lighting, and ventilating plants, and shower baths. The cost of the entire building aggregated \$400,000.

POSTOFFICE.

This magnificent building occupies an entire block bounded by Ellicott, Swan, South Division, and Oak streets, and is five stories high. The main front on Ellicott Street is 220 feet in length. In the center of this main front a tower rises to the height of 250 feet. The style of architecture is pure Gothic. The outer walls are faced with pink Maine Granite and the interior walls with glazed brick and terra cotta. Spanish green tile covers the roof and forms a pleasing contrast to the granite walls.

Glazed brick and marble are used extensively in the inside decorations. The principal offices and Court rooms are finished in Mexican mahogany and all other rooms in quartered polished oak.

The Postoffice is occupied by the Postal Department and the various United States Courts and Federal Officers, and was erected at a cost of \$1,500,000.

ELLICOTT SQUARE.

The Ellicott Square, the largest office building in the world, covers an entire block. It is ten stories high and contains about twelve hundred rooms. The total cost of this great building was about \$3,350,000. The foundation for the steel frame, which weighs 5,550 tons, consists of steel and concrete, extending nineteen feet below grade; the exterior construction is of pressed brick and pearl-gray terra cotta; the interior decorations consisting of Italian marble, marble mosaic and ornamental iron. The finish is of quarter-sawed red oak. The number of people that work under its roof would form a small city by themselves. In regard to the construction of this great building, it may be interesting to know that to build it took just one year.

CITY AND COUNTY HALL.

On Franklin Square stands the City and County Hall, an imposing and graceful structure. It was begun in 1872, finished in 1876, and cost about \$1,500,000. The style of the architecture is Norman, the building is of granite, with iron girders, marble pavement and wainscoting, and finished in highly polished black walnut. The building is three stories in height and contains nearly all the City and County offices and Courts. The present City Hall is a model public edifice, and this is acknowledged

by all who visit Buffalo. It is a model not only in point of its unusual solidity and beauty and small original cost, but in the perfection of its maintenance.

HACK ORDINANCES.

Persons to whom licenses shall have been granted for vehicles to be used in the conveyance of persons or passengers or the drivers of such vehicles may charge the following prices and no more:

1. For conveying one passenger any distance not exceeding one mile, 50 cents; and for each additional passenger, 25 cents.

2. For conveying every passenger any distance over one mile and not exceeding two miles, 50 cents; and for each additional passenger half the regular rate.

3. For conveying every passenger over two miles, \$1.00; and 50 cents for every additional mile, and for each additional passenger half the regular rate.

4. For the use of any such vehicle for the day for one or more passengers, \$8.00.

5. For the use of any such vehicle by the hour, for one or more passengers, with the privilege of going from place to place, and stopping as often as may be required, \$1.50 for the first hour, and \$1.00 for each additional hour.

6. Distances shall be measured by the most direct traveled route, and in all cases where the hiring of such vehicle is not at the time specified to be by the day or hour, it shall be deemed to be by the mile.

7. Each passenger shall be allowed to have carried and conveyed upon such vehicle, one trunk, valise, saddle bag, carpet bag, portman teau, box, bundle, basket or other article used in traveling, without charge, but for every article above enumerated more than one, carried or conveyed upon such vehicle, the driver shall be entitled to demand and receive the sum of five cents for conveying within the distance of one mile, and for more than one mile the sum of ten cents.

HOTELS AND APARTMENTS.

Buffalo's facilities for caring for the visitors in this respect, will be found ample for the accommodation of the many people who will attend the Exposition. The combined hotel capacity being over 125,000 and the large number of boarding houses, private rooming houses, lodging houses and restaurants offer accommodations for as many more. Rates will range from 50 cents a day to \$10 per day, according to location, though the favorite rates will be from \$1 to \$2 per day for rooms, and meals can be procured at the regular uniform rates.

Hotels.

Below is given a list of hotels with their location, capacity, and rates per day. Those marked Family Parties are suitable for ladies. The entire list has been inspected and approved by the Pan-American Exposition Co.

CATALOGUE

KEY OF INSTALLATION

AND

INDEX OF EXHIBITS

MANUFACTURES & LIBERAL ARTS BUILDING.

Manufactures and Liberal Arts Building.

KEY TO INSTALLATION.

For the purpose of conveniently locating the exhibits, the ground plan of the building (see opposite page) is divided into *sections*, which are indicated by the letters A to S in one direction, and by the figures 20 to 51 in the other. By this system each exhibit has a position of longitude and latitude. For example, an exhibit indicated in the catalogue as being at "I—35," would be found at that point where a line drawn vertically from "35" intersects with a line drawn horizontally from "I."

NATURE OF EXHIBITS.

Food Products, Hats and Caps, Boots and Shoes, Furs, etc.

Dress Goods, Silks, Woolens and Worsteds.

Paints, Oils and Varnishes. Chemicals, Soaps, Tools, Stoves.

Clocks, Watches, Jewelry, Glassware, Hardware,

Typewriters, etc.

Pianos, Organs, Musical Instruments, Books,

Educational Exhibits, Photography, Schools and Colleges.

Miscellaneous.

- Sunlight Gas Co.,** Cincinnati, Ohio. Generators.
- State Line Mfg. Co.,** Chatanooga, Tenn. Generators. D. M. Steward's patent burners, Wonder, Acme, Meteor, New Century, Stereopticon, and Argand Burners.
- Union Carbide Co.,** 157 Michigan Ave., Chicago, Ill. Acet. gas appliances.

MEMORANDA

Machinery and Transportation Building.

KEY TO INSTALLATION.

For the purpose of conveniently locating the exhibits, the ground floor plan of the building (see opposite page) is divided into *sections*, which are indicated by the letters A to V in one direction and the figures 1 to 26 in the other. By this system each exhibit has a position of latitude and longitude. For example, an exhibit marked "O-13" would be found at that point where a line drawn vertically from "13" intersects a line drawn horizontally from "O."

NATURE OF EXHIBITS.

Engines and Boilers, Gas Engines,
Valves, Pipes, Castings, Tools, Lathes,
Milling Machines, Elevating Machinery, Fans, Blowers, Pumps,
etc., Bicycles, Automobiles, Locomobiles, Wagons,
Carriages, Coaches, Buggies, etc.

EXHIBITORS.

American Tool & Machine Co.,
Boston, Mass. Tools, machines, etc.
P-24.

American Motor Co., New York
City. B-6.

Engineers, founders and machinists.
Founded 1845, incorporated 1864.
Specialties: Weston centrifugals, hydro-extractors, lathes, belt knife, splitting machines, improved Worrall friction clutch couplings and pulleys. The leading builders of sugar machinery in the world.

Automobile Co. of America, New
York City. Automobiles. B-6.

Abendroth & Root Mfg. Co., New
York, N. Y. M-5.

American Blower Co., Detroit,
Mich. Blowers, fans, etc. M-6.

Branches: New York, Chicago, and London. Manufacturers blowers, engines, special dryers, heating apparatus, "moist air," lumber dry kilns, "waste heat," brick dryers, expert

heating, ventilating and drying; engineers, submit your difficult problems to us.

American Roller Bearing Co.,
Boston, Mass. Roller bearings. F-15.

Ayres & Son, Wm., Philadelphia,
Pa. H-22.

American Pulley Co., Philadel-
phia, Pa. Pulleys. N-8.

Alexander Bros., Philadelphia, Pa.
Leather belting. N-18.

American District Steam Co.,
Lockport, N. Y. O-1.

Originators and builders of Holly system of underground steam distribution. Two hundred steam plants in operation. Also manufacturers of all kinds of steam specialties.

Atlas Pipe Wrench Co., New York
City. Pipe wrenches. P-1.

Atkins & Co., E. & C., Indianapo-
lis, Ind. Circular tools, saw tools.
N-15.

Solid and inserted tooth circulars,

- vener, shingle, segment, band, cross-cut, hand, wood, kitchen, pruning, and compass saws. Corn, cane, and beet knives. Machine knives a specialty.
- Aetna Hardware Co., Unionville, Ont.**
- Alberger & Son, Buffalo, N. Y.** Gas engine. L—8.
- Ames Iron Works, Oswego, N. Y.** Engine. J—15.
- American Steam Gauge Co., Jamaica Pl., Boston, Mass.** S—8.
- American Engine Co., Bound Brook, N. J.** H—15.
- Austin & Eddy, Boston, Mass.** R—10.
- American Ice Co., Philadelphia, Pa.** H—23.
- American Roller Bearing Co.** F—15.
- Buffalo Electric Vehicle Co., Buffalo, N. Y.** Automobiles. B—18.
- Bailey & Co., S. R., Amesbury, Mass.** B—23.
- Buffalo Forge Co., Buffalo, N. Y.** Blowers and engines. G—6.
- Brunswick Refrigerating Co., New Brunswick, N. J.**
- Bryden Horse Shoe Co., Catasauqua, Pa.** R—23.
- Buffalo Spring & Gear Co., Buffalo, N. Y.** F—23.
- Bierbaum & Merrick Metal Co., Buffalo, N. Y.** Lumen metals and bronzes.
- Buffalo Meter Co., Buffalo, N. Y.** N—4.
- Builders Iron Foundry, Providence, R. I.** G—4.
- Bickford & Francis, Buffalo, N. Y.** Belting. N—11.
- Boston Belting Co., Boston, Mass.** Mechanical rubber goods. N—19.
- Bickford Drill & Tool Co., Cincinnati, Ohio.** O—11.
- Bliss & Co., E. W., Brooklyn, N. Y.** Power presses. R—21.
- Brown & Sharpe Mfg. Co., Providence, R. I.** Tools, milling machines, etc. Q—16.
- Bullard Machine Tool Co., Bridgeport, Ct.** Machine tools. R—19.
- Blodget Mfg. Co.** Q—26.
- Becker-Brainard, Hyde Park, Mass.** Q—18.
- Bashlin & Co., Warren, Pa.** Valves. S—4.
- Ball Engine Co., Erie, Pa.** Engines. H—8.
- Beattie & Sons, Cohoes, N. Y.** F—7.
- Crane & Breed, Cincinnati, Ohio.** D—6.
- Hearse. Manufacturers of metallic burial cases and caskets, wood coffins and caskets, cloth-covered caskets, hardware and undertakers' supplies. Hearse, undertaking wagons, hearse trimmings, etc.
- Chisholm & Moore Mfg. Co., The, Cleveland, Ohio.** E—5.
- Manufacturers of pneumatic and hand power cranes, chain hoists and trolleys; pneumatic hoists and motors; pneumatic tools, malleable iron castings; American standard rail joints.
- Contractors' Plant Mfg. Co., Buffalo, N. Y.** C—5.
- Chandler Bros., Ayer, Mass.** F—8.
- Cornell, J. B. & J. M., New York City.** Fans, blowers, etc. H—5.
- Cately & Ettling, Cortland, N. Y.** E—26.
- Cleveland Ball Screw Co., Cleveland, Ohio.** F—17.
- Chase, L. C. & Co., Boston, Mass.** F—20.
- Consolidated Hoof Pad Co., New York City.** H—20.
- Cling-Surface Mfg. Co., Buffalo, N. Y.** Cling-surface. C—18.
- Exhibit showing improved method transmitting power. Ten H. P. motor, two five H. P. dynamos. Tight belt without, and slack belt full of cling-surface.
- Chicago Belting Co., Chicago, Ill.** M—17.
- Cochrane Co., Lorain, Ohio.** O—2.
- Cunningham Mfg. Co., Philadelphia, Pa.** O—5.
- Cincinnati Planer Co., Cincinnati, Ohio.** O—9.
- Cincinnati Machine Tool Co., Cincinnati, Ohio.** P—8.
- Chicago & North Western R. R.** M—25.
- Cincinnati Milling Machine Co., Cincinnati, Ohio.** P—10.
- Cataract Tool & Optical Co., Buffalo, N. Y.** P—7.
- Cleveland Machine Screw Co., Cleveland, Ohio.** P—19.
- Cameron Steam Pump Co., A. S., N. Y.** K—4.
- Covel Mfg. Co., Chicago, Ill., U. S. A.** P—6.
- Saw sharpening and saw fitting machinery of every description. Write for illustrated catalogue.

Carborundum Co., The, Niagara Falls, N. Y. Carborundum wheels. S—17.

Carborundum is guaranteed to be the most efficient and economical grinding and polishing material in existence. It is adapted for all classes of work.

Cleveland Twist Drill Co., Cleveland, Ohio. Twist drills, reamers, etc. S—19.

Conrad Motor Carriage Co., Buffalo, N. Y. F—7.

Cyclone Grate Bar Co., Toronto, Ont. E—1.

Canadian Pacific Railway System, Montreal, Canada. Views. A—17.

Chapman Double Ball Bearing Co., Boston, Mass. E—17.

Coe Mfg. Co. R—8.

David Bell Engineering Works, The, Buffalo, N. Y.

Deane Steam Pump Co., Holyoke, Mass. K—5.

Durand Boat Mfg. Co., Rochester, N. Y. A—7.

Dodge Mfg. Co., Mishawaga, Ind. P—13.

Diamond Machine Co., Providence, R. I. S—18.

Detrick & Harvey Machine Co., Baltimore, Md. Q—21.

Diamond Drill & Machine Co., Birdsboro Pa. Drills, crushers, etc. O—9.

Dresser, S. R., Bradford, Pa. F—2.

D'Olier Engineering Co., Philadelphia, Pa.

Doig, Estate of Wm., Brooklyn, N. Y. Box nailing machinery. R—6.

Electric Vehicle Co., New York City. C—12.

Eyssen Packer Defibrator Co., New York, N. Y. N—4.

Excelsior Machine Co., Buffalo, N. Y. F—17.

Empire Motor Works, Buffalo, N. Y. F—18.

Eastman Automobile Co., Cleveland, Ohio. F—17.

Emery Tire Co., Providence, R. I. F—19.

Elkhart Carriage Co., Elkhart, Ind. E—22.

Eureka Fire Hose Co., New York City. O—26.

This company was incorporated in 1875 and is the oldest and largest manufacturer of Seamless Cotton Rubber Lined Fire Hose. Hose of every description.

Foster, L. M., Boston, Mass. R—6.

Field Force Pump Co. D—23.

Fulton Pulley Co., Fulton, N. Y. N—10.

Fairweather & Ladew, New York City. N—15.

Faneuil Watch Tool Co., Boston, Mass. Q—9.

Fox Machine Co., Grand Rapids, Mich. P—17.

Fairbanks Co., Buffalo, N. Y.

Fisk Rubber Co. E—26.

Fitchburg Steam Engine Co., Fitchburg, Mass. Engines. J—14.

Ferracute Machine Co., Bridge-ton, N. J. P—22.

Gas Engine & Power Co., and Chas. L. Seabury & Co., Morris Heights, on the Harlem, and 11 Broadway, New York, N. Y. A—4.

The only naptha launch, steam and sail yachts, marine engines, water-tube boilers.

Goodwin Car Co., New York, N. Y. Dumping car. F—4.

Grand Trunk Railway System, Montreal, Can. Views. A—9.

Grout Bros., Orange, Mass. D—8.

Grant Ball Mfg. Co., Cleveland, Ohio. F—11.

Gisholt Machine Co., Madison, Wis. P—19.

Galena Oil Co. N—2.

Garlock Packing Co., Palmyra, N. Y. Q—1.

Grey & Co., O. A., Cincinnati, Ohio. Q—19.

Griffing Iron Co., A. A., Jersey City, N. J.

Green Fuel Economizer Co., Matteawan, N. Y. Fuel economizer. O—3.

Goodyear Rubber Co. G—22.

General Mfg. Co., Rochester, N. Y. P—1.

Grant Shaft Coupling Co. H—22.

Hengerer Co., The Wm., Buffalo, N. Y. Bicycles. B—26.

Harrison Safety Boiler Works, Philadelphia, Pa. Feed water heaters, separators. I—8.

Haynes Apperson Co., Kokomo, Ind. B—20.

Hall Iron Co. D—1.

Hallanan, M. F—22.

Hickman, Melhorn & Co., Pittsburg, Pa.

Hoggson & Pettis Mfg. Co., New Haven, Conn. Q—26.

Holmes Machine Co., E. & B., Buffalo, N. Y. Wood working machinery. Q—9.

Hooker & Co., Henry, New Haven, Conn. B—24.

Horton & Son Company, Windsorlocks, Conn.

Heald, L. S., Barry, Mass. Twist drill grinders. R—16.

Howard Iron Works, Buffalo, N. Y. Elevators, presses, etc. B—3.

Hay Budden Mfg. Co., Cleveland, Ohio. R—23.

Holland American Line. C—1.

Harrisburg Foundry & Machine Works, Harrisburg, Pa. Stationary engines, engines, high and medium speed, self-oiling, automatic, single and four-valve. Also improved Corliss with steam accelerated valve gear.

Hunt Machine Co., Rodney H., Orange, Mass. Turbines and water wheels. L—4.

International Times Recording Co., New York City. A—18.

International Navigation Co., Philadelphia, Pa. L—25.

Irwin, Chas. P., Red Bank, N. J. Ice boat models. E—7.

Jacobson Machine Co., New York, N. Y. N—9.

Jenkins Bros., New York City. S—4.

Kidder Motor Vehicle Co., New Haven, Conn. D—9.

Knox Automobile Co., Springfield, Mass. D—20.

Keller Carriage Co., Glen Rock, Pa. C—22.

Kelly Bros & Spielman, Philadelphia, Pa. N—7.

Knowlton & Beach, Rochester, N. Y. P—6.

Kennedy Valve Co., New York City. S—4.

Kieley & Mueller, New York City. S—6.

Keystone Electric Co., Erie, Pa.

Keasby & Mattison Co., Ambler, Pa.

Lidgerwood Mfg. Co., New York City. B—4.

Locomotive Co. of America, New York City. D—17.

Lamb & Ritchie, Cambridgeport, Mass. N—4.

Tin lined wrought iron pipe; lead lined wrought iron pipe. To avoid lead or brass poison in water block tin and wrought iron pipes are melted together. They cannot be separated

even by bending or hot water.

Lodge & Shipley, Cincinnati, Ohio. P—9.

Lancaster Machine & Knife Co., Lancaster, N. Y. S—20.

Long & Allstater, Hamilton, Ont. N—22.

Lunkenheimer Co., Cincinnati, Ohio. L—5.

Lane & Bodley, Cincinnati, Ohio. Engines. K—17.

Mobile Co. of America, Tarrytown on Hudson, N. Y. C—18.

Morris Machine Works, Baldwinsville, N. Y., U. S. A. Pumps, etc. L—4.

Centrifugal pumping machinery. Oldest and largest concern of its kind in America.

Machinist Supply Co., Rochester, N. Y. N—7.

Mine & Smelters' Supplies Co. O—25.

Mets, August, New York City. N—6.

Morton Mfg. Co., Muskegon Heights, Mich. Naptha launches. A—5.

Merrill Mfg. Co., Toledo, Ohio. Pipe threading and cutting machines. Q—10.

Morse Twist Drill Co., New Bedford, Mass. Q—13.

Manion Optical Co., Buffalo, N. Y. P—7.

Marinette Iron Works Mfg. Co., Marinette, Wis. Engines. J—8.

Murray Iron Works, Burlington, Ia. Engines. J—18.

National Cycle Mfg. Co., Bay City, Mich. B—22.

Niagara River Navigation Co., Toronto, Ont. A—24.

National Tube Co., Pittsburg, Pa. K—2.

National Meter Co., New York City. L—4.

New York Leather Belting Co., New York City. Belting and lace goods. N—19.

Niles, Beumont, Pond Co., New York City. L—23.

National Pipe Bending Co., New Haven, Conn. Q—1.

Norton Emery Wheel Co., Worcester, Mass. Emery wheels. R—15.

Niagara Machine & Tool Co., Buffalo, N. Y. O—23.

- Warren-Omey Co., The, Gormer, Mich.** Portable fire escape. P—26.
- Wood, William F. & Co., Summerville, Mass.** G—21.

MEMORANDA

Electricity Building.

KEY TO INSTALLATION.

For the purpose of conveniently locating the exhibits, the ground floor plan of the building (see opposite page) is divided into *sections*, which are indicated by the letters A to F in one direction, and by the figures 1 to 23 in the other. By this system each exhibit has a position of longitude and latitude. For example, an exhibit indicated in the catalogue as being at "F-4," would be found at that point where a line drawn vertically from "4" intersects with a line drawn horizontally from "F."

NATURE OF EXHIBITS.

Dynamos, Motors and other Electrical Machinery.
Transformers, Lighting Apparatus, Electric Lights, Batteries,
Conduits, Wire, Cables, etc.
Apparatus for Electrical Measurements, Electro-Metallurgy,
Telegraph, Telephones, Electrical Surgical,
Medical and Dental Apparatus. History and Statistics, etc.

EXHIBITORS.

American Clock Co., The, 385 Washash Ave., Chicago. Electric time systems.

American Elec. Tele. Co., 50 W. Jackson Boul., Chicago, Ill. Telephones. 17—C.

American Vitriified Conduit Co., 41 Cortlandt St., New York, N. Y. Conduits. 17—A.

Arnold Electric Power Station Co., 1540 Marquette Bldg., Chicago, Ill. Electrical machinery. 3—F.

Designers and builders of complete electrical installations. Main office Marquette Bldg., Chicago. New York office, Transit Bldg.

Bettini Phonograph Company, 110 Fifth Ave., New York, N. Y. Phonographs. 16—F.

Bossert Electric Const. Co., Utica, N. Y. Switches and panel boards. 15—A.

Bullock Electric Mfg. Co., Cincinnati, Ohio.

Dynamos, motors, etc. 9—C.

Bell Telephone Co., Buffalo, N. Y., Telephones. 20—D.

Bernard E. G. Co., The, 450 Fulton St., Troy, N. Y. Exhibit located in special building on lake shore, and operates Electric Fountain. Manufacturers dynamos, motors, electrical instruments, telephones, switchboards, and general electrical supplies.

Buckeye Electric Co., The, Cleveland, Ohio. Lamps. 17—E.

Incandescent lamps.

Incandescent lamps.

Incandescent lamps.

Incandescent lamps.

Camp, H. B. Co., 307 Park St., Akron, Ohio, Conduits. 15—A.

Clark Auto. Tele. Switchboard Co., Providence, R. I. Telephone apparatus. 22—C.

Crocker-Wheeler Company, Am-

- pere, N. J. Dynamos, motors, etc. 10—E.
- Cutler-Hammer Manufacturing Co.,** Milwaukee, Wis. Rheostats. 4—E.
- Delaney, Patrick B.,** Orange, N. J., Electr. cal plans. 14—F.
- D'Olier Engineering Company,** 125 S. 11th St., Philadelphia, Pa. Dynamos, motors, etc. Machinery bldg.
- Elec. Storage Battery Co.,** Philadelphia, Pa. Storage batteries. 7—E. Manufacturers of the "Chloride Accumulator" for trolley regulation, lighting and power stations, electric vehicles, launches, telephone, telegraph, etc., etc.
- Edison Manufacturing Co.,** Factory, Orange, N. J. Edison Laboratory products. 7—C. New York office 135 5th Ave. Chicago office, 144 Wabash Ave. Foreign department, 15 Cedar St., New York.
- Eldridge R. Johnson Gramophone Co.,** Philadelphia, Pa. Gramophones. 17—F.
- Eureka Tempered Copper Works,** North East, Pa. Wire, etc.
- General Electric Company,** Schenectady, N. Y. Electrical machinery. 5—B.
- Gould Storage Battery Company,** Depew, N. Y. Storage batteries. 2—D.
- General Electric Water Co.,** 57 Warren St., New York, N. Y. Machinery. 20—A.
- Hazard Mfg. Co.,** Wilkesbarre, Pa., Wire cable. 16—C.
- Holophane Glass Co.,** 15 E 32d St., New York, N. Y. Globes, etc. 8—E.
- Hanfeld, B. & G.,** 107 E. 23d St., New York, N. Y. Electrical surgical instruments. 23—C.
- Holland, C. E.,** 57 Warren St., New York, N. Y. Water purification. 20—A.
- Inc. Elec. Lt. Manipulator Co.,** 116 Bedford St., Boston, Mass. Electric light manipulators. 23—B.
- Johnson, E. R. Gramophone.** 19—E.
- Jandus Electric Company,** Cleveland, Ohio. Lamps. 17—E. Arc lamps, fan motors. Arc lamps, fan motors. Arc lamps, fan motors. Arc lamps, fan motors.
- Kate Fearn Loom Co.,** Windermere, Long Lake, Ill. Loom. 5—F.
- Kellogg Switchboard & Supply Co.,** Chicago, Ill. Telephones. 18—E.
- Keystone Electric Company,** Erie, Pa. Electric machinery, working exhibit in machinery and Transportation Bldg.

- McRoy, John T.,** Conduits, 302 Broadway, New York, N. Y. 16—B.
- Mason Monogram Company,** 11 Broadway, New York, N. Y. Electric signs. 21—F.
- National Carbon Company,** Cleveland, Ohio. Carbons 16—A.
- National Automatic Tele. Co.,** 75 W. Jackson Boul., Chicago, Ill. Telephones. 21—C.
- Northern Electric Mfg. Co.,** Madison, Wis. Electric machinery. 5—E.
- National Gramophone Corporation,** 874 Broadway, New York, N. Y. Gramophones. 18—F.
- Onondaga Dynamo Company,** Syracuse, N. Y. Electrical machinery. 2—D.
- Peru Electric & Mfg. Co.,** Peru, Indiana. Switch boards. 18—A.
- Perkins, Frank C.,** Buffalo, N. Y., Electrical plans. 23—E.
- Rowell, C. B., M. D.,** 945 Niagara St., Buffalo, N. Y. Static machines. 22—F.
- Shelby Electric Co.,** Incandescent lamps, Shelby, Ohio. 18—C.
- Stanley Instrument Co.,** Great Barrington, Mass. Electrical instruments. 6—E.
- Stanley Electric Mfg. Co.,** Pittsfield, Mass. Electric machinery. 5—E.
- Standard Underground Cable Co.,** Pittsburg, Pa. Cables. 16—C.
- Safety Ins. Wire Co.,** 229 W. 28th St., New York. Wire. 18—E.
- Stromberg-Carlson Tele. Mfg. Co.,** 82 W. Jackson Boul., Chicago, Ill. Telephones. 18—C.
- Syracuse Electric Instrument Co.,** Syracuse, N. Y. Instruments. Working exhibit in Machinery Bldg.
- Toerring, C. J. Co.,** Lamps, 1035 Ridge Ave., Philadelphia, Pa. Exhibit in Machinery and Transportation Bldg.

The Pan-American Official Catalogue and Guide.

Warren Electric Co., Motors, Sandusky, Ohio. 18—C.

White, O. C. Co., Worcester, Mass.,
Fixtures. 21—A.

Walte & Bartlett Mfg. Co., 108 E.
23rd St., New York, N. Y. Electric
surgical instruments. 23—D.

Westinghouse Electric Co., Pitts-
burg, Pa. Electrical machinery.
11—C.

Western Electric & Mfg. Co., New
York, N. Y. Telephones. 20—D.

Wilhelm Telephone Co., Buffalo,
N. Y. Telephones. 19—C.

Wagner & Co., R. W., Dearborn
St., Chicago, Ill. Static machine.
23—B.

Mines Building.

NATURE OF EXHIBITS.

Ores, Iron, Copper and Nickel, Gold, Silver, etc.

Limestones, Marble, Sandstones, Trap, Building
and Ornamental Stones, Petroleum Products, Salts, Mineral
Paints, Clay, Brick, Tile, etc.

EXHIBITORS.

- Algonquin Red Slate Co., Worcester,** Mass. Mineral Paint.
- Alice A., Little Turtle, Mine Center,** Ont. Gold ores.
- Arlagh Mine, W. A. Payne, Mgr.,** Mine Center, Ont. Gold ores.
- Atlas Arsenic Co., Ontario.** Arsenic & arsenical ores.
- Anglo-American Copper Co., Parry Sound,** Ont. Copper ores.
- Ancram Iron Ore Co., Ancram,** N. Y. Iron ores.
- Abbott & Embury Mine, Ontario.** Magnetic iron.
- Allen, W. H., Ottawa, Ont.** Mica.
- Atlantic & Georges Creek Consolidation Coal Co.,** 114 E. Baltimore St., Baltimore, Md. Coal.
- American Coal Co., 1 Broadway,** New York City. Coal.
- Aurora Mine, Alamo, Lower Cal.** care of L. H. Russell, Los Angeles, Cal. Gold quartz.
- American Asphalt Co., Los Angeles,** Cal.
- Behr, H., New York, N. Y.** Garnet paper.
- Barton & Sons Co., H. H., Philadelphia,** Pa. Garnet concentrates, massive garnet, and garnet paper.
- Brush Bros., Jewetsville, N. Y.** Shale and brick.
- Buffalo Cement Co., Buffalo, N. Y.** Cement rock and cement.
- Burhand & Brainard, Saugerties,** N. Y. Sandstone and blue stone.
- Boice, Hewitt, Rondout, N. Y.** Sandstone and blue stone.
- Bouton, A. W., Roxbury, N. Y.** Sandstone and blue stone.
- Babcock, T. J., Waterloo, N. Y.** Limestone and marble.
- Bailey, J. E., Breakneck, N. Y.** Granite and trap.
- Bailey, J. E., Cold Spring, N. Y.** Granite and trap.
- Bennett, Frank, Staten Island, N. Y.** Trap.
- Barber Asphalt Co., New York City.** Asphaltum.
- Baden-Powell Mine, care of S. S. Fornier, Rat Portage, Ont.** Gold ores.
- Bullion No. 2 Mine, care of D. C. Cameron, Rat Portage, Ont.** Gold ores.
- Big Master Line, Upper Mountain Lake, Ontario.** Gold ores.
- Black Hawk Gold Mining Co., Rat Portage, Ont.** Gold ores.
- Boerth Mine, Ardoch, Ont.** Gold ores.
- Belmont Mine, Mannora & Belmont, Ontario, Canada.** Gold ores.
- Bruce Copper Mining Co., Ontario, Canada.** Copper ores.
- Bowman, J., Rossport, Ont.** Copper and nickel ores, pyrrholite, etc.
- Burnside Mine, Hastings, Col., Ontario, Canada.** Iron pyrites.
- Black, J. F., Sudbury, Ont.** Map of Ontario showing mines and mining centers.
- Black Donald Mine, Grougham Township, Ont., care of J. W. McRae, Ottawa, Ont.** Graphite.
- Blackburn Bros., Ottawa, Ont.** Mica.
- Burns Russell Co., 535 Columbia Ave., Baltimore, Md.** Brick and tile.
- Baltimore Brick Co., 1001 Atlantic**

The Pan-American Official Catalogue and Guide.

- Trust Bldg., Baltimore, Md. Brick and tile.
- Baltimore Retort & Fire Brick Co.,** Hull & Nicholson Sts., Baltimore, Md. Brick and tile.
- Big Vein Coal Co., 21 South Gay St.,** Baltimore, Md. Coal.
- Black, Sheridan, & Wilson Co.,** 1-3 Chamber of Commerce, Baltimore, Md. Coal.
- Barton Mining Co.,** Barton, Md. Coal.
- Blaine Coal Co.,** Blaine, West Va. Coal.
- Burns, E. E.,** Whitehall, Md. Flint and feldspar.
- Beaver Dam Marble Co., 704 Constitution St.,** Baltimore, Md. Marble.
- Beall, R. A., 14 S. Liberty St.,** Cumberland, Md. Sandstone.
- Cayuga Plaster Co.,** Union Springs, N. Y. Gypsum and land plaster.
- Consolidated Wheatland Plaster Co.,** Wheatland, N. Y. Gypsum and land plaster.
- Connors, William, Troy, N. Y.** Paint and mortar color.
- Chazy Marble Lime Co., Chazy, N. Y.** Limestone and chemical lime.
- Clarke Blue Stone Co., F. G., Oxford, N. Y.** Sandstone and blue stone.
- Clarkson, A., Potsdam, N. Y.** Sandstone and blue stone.
- Clark, S. W., Willsboro Point, N. Y.** Limestone and marble.
- Carpenter, B. & J., Lockport, N. Y.** Limestone and marble.
- Carpenter, J. & C., Lockport, N. Y.** Limestone and marble.
- Campbell, Eugene, Medusa, N. Y.** Limestone and marble.
- Crim, A. B., Middleville, N. Y.** Quartz crystals.
- Clinton Metallic Paint Co., Clinton, N. Y.** Mineral paint.
- Clinton Iron Ore Co., Clinton, N. Y.** Iron ores (red hematite).
- Cameron Island Mine, Cameron Island Mining Co.,** Toronto, Ont. Gold ores.
- Cochrane, Frank, Sudbury, Ont.** Gold ores.
- Crichton & Petrie, Dymont, Ont.** Gold ores.
- Canadian Peat Fuel Co.,** Toronto, Ont. Peat fuel.
- Crown Corundum Co., J. Curry,** Toronto, Ont. Corundum.
- Canadian Corundum Co., B. A. C.**
- Craig, Toronto, Ont. Corundum.
- Canadian Gold Fields Co., Delore, Ont.** Arsenic and arsenical ores. Manufacturers of pure white arsenic (arsenic oxide). Prepared to fill all orders promptly. Only sold in kegs bearing (C. G.) brand.
- Canadian Copper Co., Copper Cliff, Ont.** Smelting and metallurgical works and products. Samples from their several mines at Sudbury in large blocks.
- Coe Hill Mine, Ontario, Canada.** Iron ore.
- Caldwell, T. B., Lanark, Ont.** Iron ore.
- Chisholm, J. H., Cloyne P. O.** Iron ore.
- Canadian Portland Cement Co.,** Desoronto, Ont. Portland Cement.
- Carroll, Robt., Toronto, Ont.** Building and ornamental stones.
- Cleveland Stone Co., The, Cleveland, Ohio.** Building stone.
- Conocheague Brick & Earthenware Co.,** Williamsport, Md. Brick and tile.
- Consolidation Coal Co., 44 South Street,** Baltimore, Md.
- Central Oil Co., Los Angeles, Cal.** Crude oils.
- Davies, A. R., North Litchfield, N. Y.** Lime and cement.
- Dibble, Alfred, Belvidere, N. Y.** Building stones 10-inch cubes.
- Delaware Mining, Milling & Manufacturing Co.,** Roxbury, N. Y. Mineral paint.
- Dobson, Alex., Beaverton, Ont.** Peat fuel.
- Deseronto Furnace Co., F. B. Gaylord, Deseronto, Ont.** Smelting and metallurgical works and products.
- Davis Coal & Coke Co.,** Piedmont, West Va. Coal.
- Dickey Gibson Coal Co.,** Piedmont, West Va. Coal.
- Drake Co., The, St. Paul, Minn.** Coal.
- Eastern Paving Brick Co., Catskill, N. Y.** Brick and shale.
- Empire Cement Co., Warners, N. Y.** Marl, clay, cement clinker and cement.
- Empress Mine, Ontario, Canada.** Gold ores.
- Emory, Dr., Toronto, Ontario.** Iron pyrites, Thunder Bay District.
- Eckert, H., Madoc, Ontario.** Iron ores.

- Ellis, P. W., Toronto, Ont.** Building and ornamental stones.
- Eichner Bros., Cumberland, Md.** Pottery.
- Excelsior Slate Co., (of Hartford Co.,) Delta, Pa.** Slate.
- Easton, Eldridge, & Co., Los Angeles, Cal.** Crude oils.
- Farr & Bailey, Camden, Pa.** Oil cloth painted with New York State paint.
- Fogelsonger, C. & H., Buffalo, N. Y.** Limestone and marble.
- Forsyth, R., Grindstone Island, N. Y.** Granite and trap, 10-inch cubes.
- Furnaceville Iron Ore Co., Ontario, Wayne Co., N. Y.** Iron ores (red hematite).
- Foley Mine, Shoal Lake, Mine Center, Ontario.** Gold ores.
- Franche, Capt. F., Goderich, Ont.** Iron ore.
- Frederick Brick Works, The, Frederick, Md.** Brick and tile.
- Franklin Refining Co., Los Angeles, Cal.** Oil and mineral exhibit.
- Grinnell, Ezra, Port Gibson, N. Y.** Gypsum and land plaster.
- Genesee Salt Co., New York, N. Y.** Salt.
- Glens Falls Co., Glens Falls, N. Y.** Limestone and marble.
- Golden Star Mining Co., Hon. S. C. Wood, Pres., Toronto, Ont.** Gold ores.
- Gold Winner Mining Co., Duluth, Minn.** Gold ores.
- Graham Mine, North Shore, Lake Superior, Ont.** Copper ore (native copper).
- Great Lakes Copper Co., Sudbury, Ont.** Copper and nickel ores, pyrrholite, etc.
- Gertrude Mine, Lake Superior Power Co., Ont.** Copper and nickel ores, pyrrholite, etc.
- Greatrix, W., Madoc, Ont.** Iron ore.
- Grand Hotel Co., Ltd., Caledonia Springs.** Mineral water.
- Caledonia Springs—famous Canadian cure—rheumatism, stomach, liver and kidney troubles. Saline aperient, white sulphur, diuretic and table waters. Sold everywhere. Ask for circular.
